

VanZyverden's
TALL PHLOX RED RIDING HOOD

Tall phlox, botanically known as *phlox paniculata* or commonly as garden phlox, is native to North America. Phlox is a staple in the perennial garden since it mixes easily with other plants and provides extended blooms throughout the summer. Regardless of the color, garden phlox is fragrant, rich in nectar and attracts pollinators - especially hummingbirds. Vigorous grower with sturdy stems that withstand adverse weather conditions. A perennial if planted USDA zones 4-8 and will return for years to come reaching maturity in year three.

Attracts pollinators

Fragrant

Deer resistant

About This Variety: Phlox paniculata Red Riding Hood adds clusters of berry-red flowers, atop bushy upright foliage and stems. Compact in growth and disease resistant and create a bold color impact in any garden.
