

Paintable plastic lattice turns the ordinary into fresh and fun.

It's high time to rethink lattice. Dimensions all-new paintable plastic lattice inspires endless possibilities for breathing new life into everyday spaces. Use it in fun and creative ways—inside and out—anywhere calling for a refresh.

Plastic lattice painting tips*

- Clean the surface with a solution of warm water and dish soap. Rinse and allow to dry.
- Apply two thick coats of aerosol primer for plastic over the entire surface, as instructed on the can. Allow to dry between coats.
- Once dry, apply a thin coat of any aerosol paint over the entire surface, per product directions. Allow to dry as directed. Apply a second coat of aerosol paint over entire lattice sheet. Allow to dry as directed.
- Paint for Plastic can be used without primer per product instructions.
