

# FRASER HILL FARM®

## Porch Tree Collection

Spruce up your holiday decor with this porch tree from Fraser Hill Farm. Featuring lifelike foliage and all-metal structure for strength and durability, this classic tree is specially crafted using the finest materials to look realistic and provide you with many seasons of use and enjoyment. The branches are constructed from non-allergenic and flame-retardant materials then painted multiple hues of green so no two are exactly alike. Red berries and warm white LED lights accent the branches to create the look of a festive shrub that requires hardly any maintenance.

Place one in a corner for a lovely pop of green or buy two to frame a door, entryway, or fireplace. If you love Christmas plants but do not want the maintenance, this is for you. Simply turn on and display - no clipping or watering required!
