

# Instructions

Warning: Please not to scratch the product when unpacking.

This sofa is made of special memory foam and has been compressed when packing. Probably there are wrinkles on the covers, or the covers seems not fit well in the very beginning. JUST be patient and leave it for 12+ hours, then the sponge and covers will gradually recover. (suggestion: Iron the cover to make it smooth and recover faster).

The two seats can be connected by attaching a magic cloth to the bottom.
