HERE'S HOW TO TAKE CARE OF ME

Money Tree

LIGHT

I grow best near a sunny window; at most 5 feet away. Direct sunlight will burn my leaves.

WATER

Water me when the surface of my soil is no longer moist to the touch then gently tip me gently to lay on my side so I can drain away unwanted water.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I have upright growth that can purify the air and I am super easy to grow.

GROWING TIPS

If the leaves start to have brown, crispy edges, placing it with other plants or near a small humidifier can help. Money Trees need more frequent watering in spring and summer than it does in winter.

GIVE ME FRIENDS

(I play well with)

Calathea, Baby's Tears, or Peace Lily
