

CARE TIPS AND GENERAL INFO FOR: LAVENDER STOECHAS (FRENCH)

EXPOSURE:

FULL SUN

POLLINATOR:

POLLINATOR MAGNET!
Bees, birds, butterflies, etc.
love lavender.

BLOOMTIME:

LATE SPRING - SUMMER

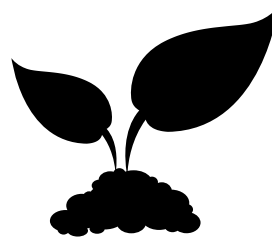

WATERING NEEDS:

MINIMAL.

Once established Lavender
prefers dryer soil and can
even handle a little drought.
Less is more.

SOIL TYPE:

LOOSE/FAST DRAINING SOILS
Lavender does not like to grow
in wet soil. Avoid heavy, dense,
soggy soil.

FERTILIZER:

USE A SLOW RELEASE
GRANULAR FERTILIZER
EVERY SPRING.
