Bonds to Virtually Any Surface!

WHAT ARE GLUE DOTS?

Glue Dots® are double-sided adhesives that bond instantly to virtually any surface. They are mess-free, non-toxic, and require no dry time; making home repairs and DIY projects quick and easy. Glue Dots also work great as a “second set of hands” to hold items in place before nailing or screwing. Available in multiple formulas and formats, there is a Glue Dots solution for DIY homeowners and contractors alike.

GLUE DOTS ARE:

- Easy-To-Use
- Non-Toxic
- Instant Bonding
- Mess-Free
- Compliant to ASTM D-4236
- Acid-Free

Test before use. Glue Dots Intl. is not liable for any loss or damage arising from use of this product, whether direct, indirect, special, incidental, or consequential. Do not use as primary bond for load-bearing, structural, or overhead applications.

DISPENSER

Glue Dots Dispenser fits in the palm of your hand and is perfect for quick fixes and repairs. Just press the dispenser onto the surface and pull toward you to dispense the right amount of adhesive for the job.

- Great for quick, on-the-go jobs
- Small footprint stores easily in a tool box, drawer, purse, or backpack
- Use as an alternative to traditional tapes and glues at home, in school, or at the office

REPOSITIONABLE

REMOVES WITHOUT DAMAGE

HOLDS UP TO:
2 lbs.

The Repositionable formula is great for hanging lightweight items, securing rugs to hardwood and tile floors, and can be easily removed without the risk of damage or staining.

SECURE AREA RUGS

ADVANCED STRENGTH

PERMANENT BOND

HOLDS UP TO:
8 lbs.

The Advanced Strength formula is ideal for tough jobs and DIY projects that require exceptional holding power. The thicker profile also works great on most textured and porous surfaces.

HELPFUL TIPS

Because Glue Dots bond instantly to virtually any surface and require no dry time they are the ideal adhesive to keep around the house for quick fixes and everyday projects. Glue Dots Brand Adhesives are always ready to tackle your next project.

REPOSITIONABLE:

Glue Dots Repositionable Adhesives remove cleanly without damage making them ideal for hanging signs, securing rugs and keeping drop cloths in place when painting. Use the Repositionable formula anywhere you need a reliable bond that can be easily removed without damaging a surface.

Secure Area Rugs:

Tired of your rugs moving and slipping? Secure a rug to your tile, wood and laminate floors without damaging your flooring.

Simply apply a few dots on the corners of the rugs and apply pressure to keep the rug securely in-place. Remove the rug for cleaning when needed without risk of damage.

Level Frames & Artwork:

Crooked pictures and wall art are a nuisance. Use Repositionable Glue Dots to secure picture frames to a wall to keep them in a level position without damaging your wall.

Stainless Steel Appliances:

Magnets don't work on stainless steel appliances, that is why Repositionable Glue Dots are a great solution. They hang lightweight items and remove cleanly without staining.

HELPFUL TIPS

Because Glue Dots bond instantly to virtually any surface and require no dry time they are the ideal adhesive to keep around the house for quick fixes and everyday projects. Glue Dots Brand Adhesives are always ready to tackle your next project.

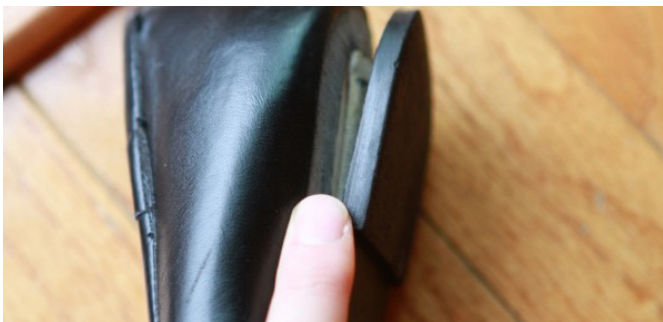

ADVANCED STRENGTH:

Glue Dots Advanced Strength Adhesives are ideal for tough jobs and DIY projects that require exceptional holding power. The exceptional holding power and thicker profile make this adhesive ideal of everyday repairs both large and small.

Replace a broken or loose tile:

Need to fix your backsplash or bath? Save time and make a reliable repair. Because Glue Dots bond instantly you can grout it immediately without having to wait overnight for the adhesive to dry.

Repair the sole of your shoe:

Do you have a flapping sole on your shoe? Advanced Strength Glue Dots are perfect for repairing your favorite pair of shoes. Unlike other adhesives, Glue Dots bond safely to foam, rubber, wood, and leather.

Secure Molding & Trim:

Advanced Strength Glue Dots are perfect for securing molding, such as baseboards or installing decorative trim around a mirror. Use a few dots to hold the trim before fastening it into place.
