

4-INCH MOD WALL

LIGHTER WEIGHT, MODERN AESTHETICS
& EASY TO INSTALL

Features & Highlights

Rear Lip

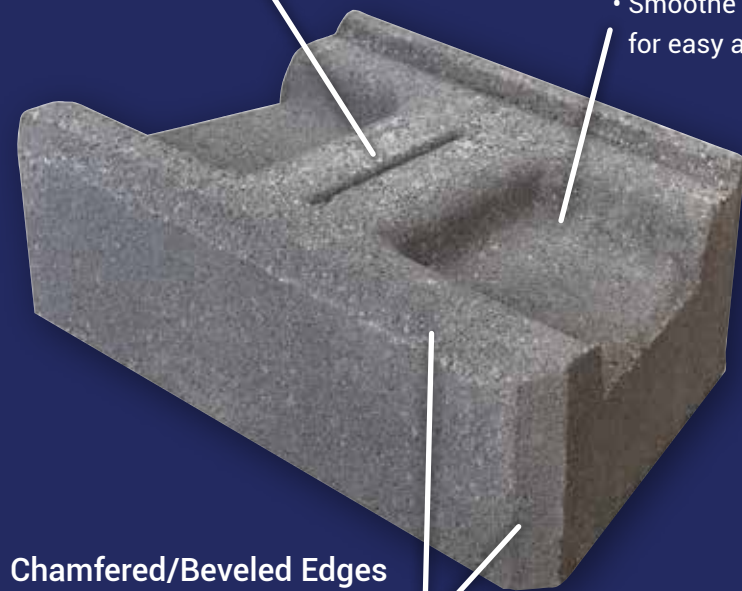

- For setbacks, alignment and installation

Split Point

- Use manufactured center groove as splitting point to easily create 90° corner units

Hand Holds

- Smooth SureGrip™ hand holds for easy and safe installation

Chamfered/Beveled Edges

- Edges are designed to have a more modern, sleek look which pairs well with the smooth face design

Installation **WITH** Rear Lip

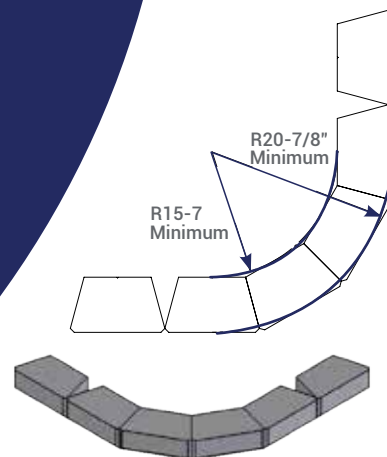

- Max height is 6 courses
- Rear lip provides a 1/2" setback

Installation **WITHOUT** Rear Lip

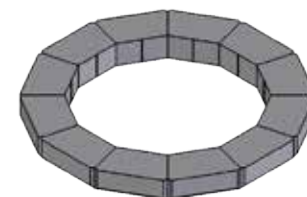

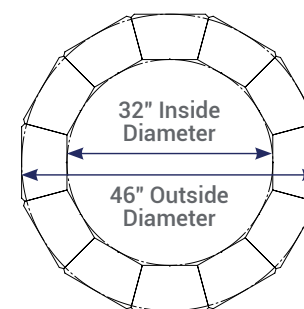

- Max height is 4 courses
- Remove rear lip & apply concrete adhesive glue between each course to install near vertical

Curved Wall

Application Examples for **4" MOD WALL**

Circular Firepit
