

Assembling instruction

Assembling steps:

- 1, Connect the upper and lower iron round frames together using the provided iron fittings.
- 2, Connect the lamp holders together using the provided small straight tubes.
- 3, Connect the lamp holder and the iron frame together using the provided large straight tube.
- 4, Connect the wires with the power wires correctly.
- 5, Fix the canopy to the plate board with the screws and the ends nut.
- 6, Put in the bulbs, then turn on the light to test.

Notes:

1. This light can only be used indoors;
2. Cut off the power when assembling;
3. Cut off the power when replacing the light source;

Voltage: AC 85-165V
Frequency: 50/60Hz
Bulb base: E26

Cautions:

Please do not use gasoline, alcohol, anti-toxic agents and other corrosive drugs to wipe the lamps, otherwise it will damage the lamps.

Cut off the power when the lamp is in repair or maintenance.
