

MULTIFRAME-346-1

Multi-diameter mounting frame

Product Description

The Multiframe can be used with many of NICOR's 3", 4" and 6" LED downlights with remote drivers. Providing a mounting location as well as a wiring location indicator, the Multiframe can simplify the installation of downlights that don't require a housing.

Installation

- Double-sided tape for fixture driver mounting is included.

Plaster Frame

- Single piece stamped 22ga steel frame
- Integrated hanger bar attachment features

Hanger Bars

- Two fully adjustable, pre-scored hanger bars (13.75" - 25.5") with captive nails included on frame
- Bars can be locked into place after adjustment with preinstalled set screw
- Unique hanger bar lip design helps align frame to bottom of joist and T-Bar notch allow for installation into suspended ceilings

Warranty

- 1-year warranty standard
