

**PENNINGTON**

PENNINGTON
Smart Seed
Professional Grass Seed **PRO**
Tall Fescue
+Bluegrass

As The Grass Seed People®, we at Pennington Seed set out to create the best possible grass seed for the needs of the professional landscaper and sports field manager.

The result – Smart Seed® Pro, Tall Fescue+Bluegrass Mix with exceptional aesthetics, advanced genetics and industry-leading, water-saving technology.

Features:

- Mixture of elite turf Tall Fescue & Bluegrass varieties
- Outstanding summer stress tolerance
- Requires less fungicide treatments

Benefits:

- Superior dark green color
- Outstanding drought tolerance
- Improved disease resistance
- Improved wear tolerance
- Uses up to 30% less water*

*Year after year versus ordinary seed

Recommended Use:

- Golf Courses
- Parks, Playgrounds, Cemeteries & Athletic Fields
- Home Lawns
- Erosion Control

Seed Fuel:

Seed Fuel is our exclusive formulation of a “biostimulate” package for treating seed. It contains 3 plant hormones that aid in quicker establishment after germination.

Seed Treatment vs Seed Coating

Seed Fuel is a spray on additive not a heavy coated seed. This type of application allows us to add the benefits of the treatment without adding unnecessary weight to the bag.

Seeding Rates/Maintenance:

- Golf Course Roughs
5 - 10 lbs/1000 sq ft
2.5 inches
- Home Lawns, Sod Farms
8 - 10 lbs/1000 sq ft
2.5 inches
- Athletic Fields/Parks
10 - 15 lbs/1000 sq ft
2 inches

Establishment:

Soil: Well drained to clay; pH of 6-7
Sowing Time: Spring or early fall
Planting Depth: 1/8 inch
Fertilizer: 0.5-0.9 lb Nitrogen/1000 sqft
Germination: 6-14 days
Water: Keep soil moist until turfgrass is 3 inches tall
First Mowing: 21 days after sowing or when turfgrass is 3 inches tall
