Installation Instructions

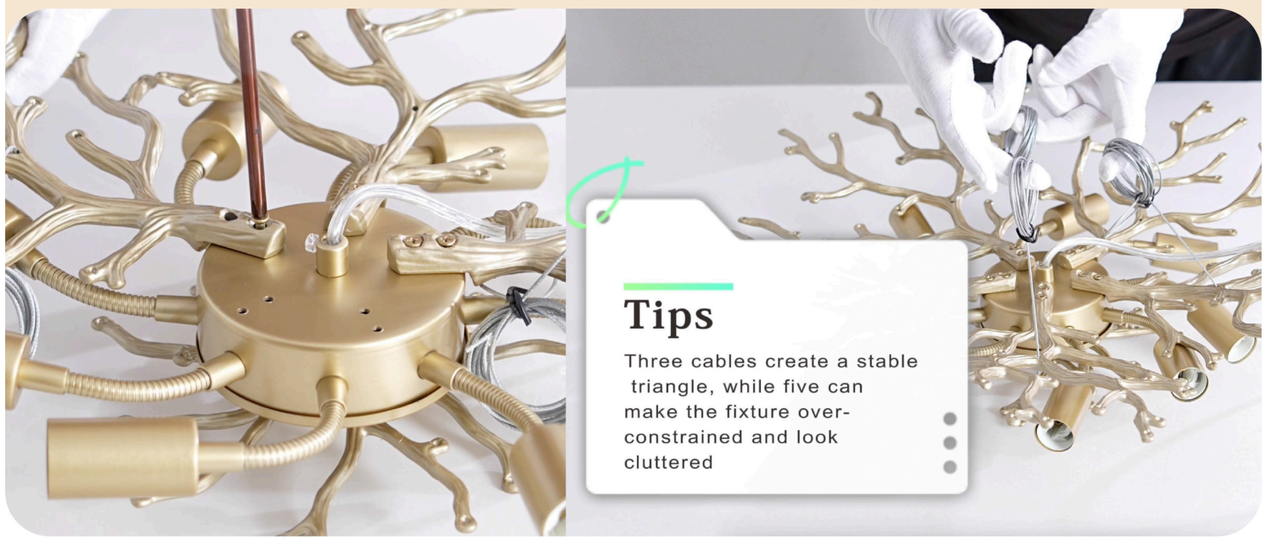

① Check that all accessories are included.
For any questions, please contact us via the "Contact Seller" option on your order page.

② Attach the central branch to the base of the junction box. Note: The central branch features six pre-drilled holes for hanging crystals.

③ Assemble the branches, starting with the three that have suspension cables for balance, then add the rest.

④ Thread the suspension cables through the ceiling canopy. Secure the suspension cables with wire rope clips. Hanging length is adjustable.

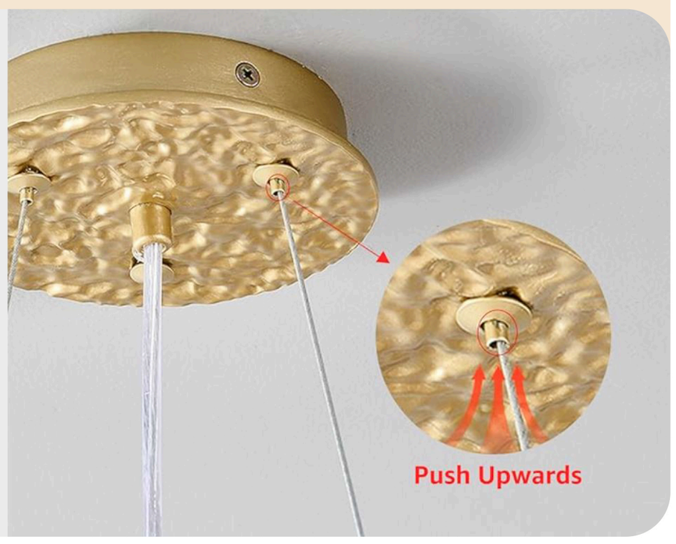

⑤ Install E12 bulbs (Note: Install the bulb before the crystals to make setup easier).
Then, attach crystal strands (6 extras included).

Step 1: Push up the Sliding Cord Lock Sleeve
Step 2: Slide the cable to your desired length
Step 3: Release to lock it securely in place

TIP:
Adjust the Hanging Height in 3 Steps

Precautions

1. AC 110–130V, 50–60Hz. Maximum bulb power: 40W. Use E12 bulbs only.
2. Avoid scratching the surface of the fixture or the wires during installation. Connect the live wire to "L", the neutral wire to "N", and wrap the bare copper ground wire around the grounding screw.
3. Ensure that the ceiling and installation area are completely dry and free of moisture before installing the fixture.
4. Keep the fixture away from acids, acidic substances, and corrosive gases. Clean with a soft cloth. Do not wash with water.
5. The fixture must be installed by a professional electrician and is intended for indoor use only.
6. Always turn off the power supply when installing, cleaning, or replacing the bulb.
