|                                                              | 3. Faulty wire connection.                       | 3. Check wiring                 |
| Fuse blows or circuit breaker trips when light is turned on. | 1. Crossed wires or power wire is grounding out. | 1. Check wire connections.      |

## PRODUCT MAINTENANCE:

- 1.To clean the outside of the fixture,use a dry or slightly dampened clean cloth (use clean water ,never a solvent) to wipe the surface of the fixture.
- 2.To clean the inside of the fixture, first disconnect power to the fixture by turn off the circuit breaker or by removing the fuse at the fuse box. Next, use a dry or slightly dampened clean cloth (use clean water, never a solvent) to wipe the interior surface of the fixture.
- 3.Do not use any cleaners with chemicals, solvents or harsh abrasives. Use only a dry soft cloth to dust or wipe carefully.
