

Solar lamps usage

Turn on/off the light. For the first use, you need to turn on the lights. The light switch button can adjust the lights to natural light.

Adjust the color of the lights (yellow, red, white)
Set the lights to turn off at a certain time.

Adjust the intensity of the lights

Please remove the transparent sheet before use.

Power connection usage method

Unscrew the four screws at the bottom corners of the top to open the roof, install the light bulb. Before installing the light bulb, please turn off the power supply.
