

# Give your flooring project a stunning finish

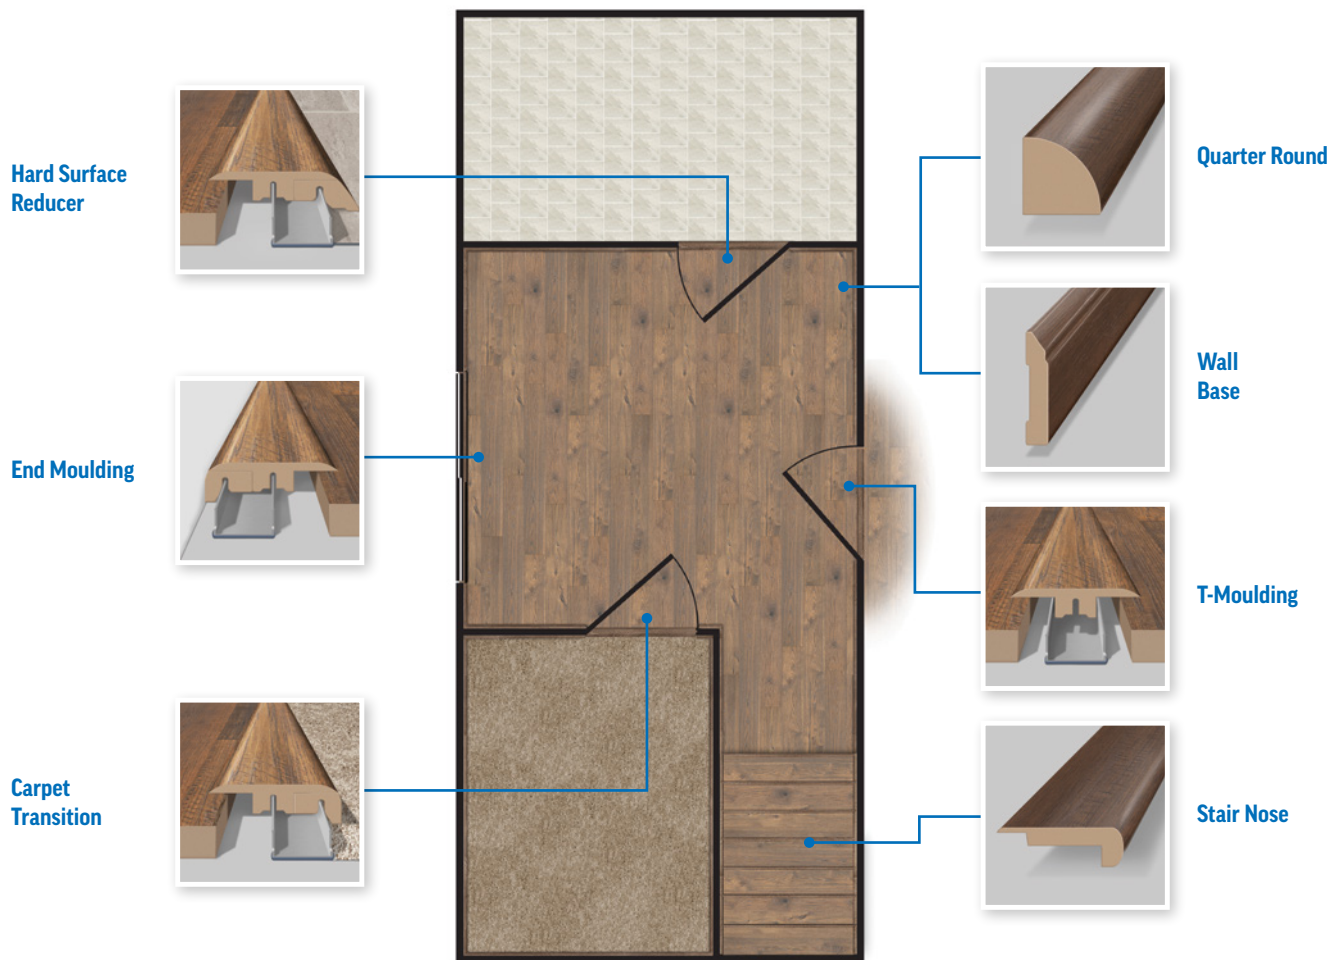

Stylish mouldings and transitions

**PROJECT**  
**SOURCE.**

# Solutions for Every Need.

Design is in the details. So, you'll want to make sure that you finish your room with stylish mouldings and transitions that not only cover the expansion space but finish the floor or bridge the gap between two rooms.

One room generally requires more than one transition so Project Source® offers a 4-in-1 multifunctional moulding that allows you to create multiple transitions. Plus we offer wall base\*, quarter round and stair nose in a wide variety of coordinating looks. All of our accessories install quickly and easily to save you time and money.

*\* Coordinating wall base moulding is available for laminate flooring only.  
Prefinished white wall base is available for use with laminate and luxury vinyl flooring.*

We stand behind our products and we have expertise working with all the major flooring brands, so our mouldings are designed to fit your floor, no matter what brand you choose. We know moulding and our products are ideal solutions for all floating floors sold at Lowe's.

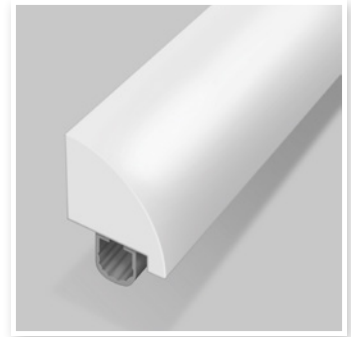

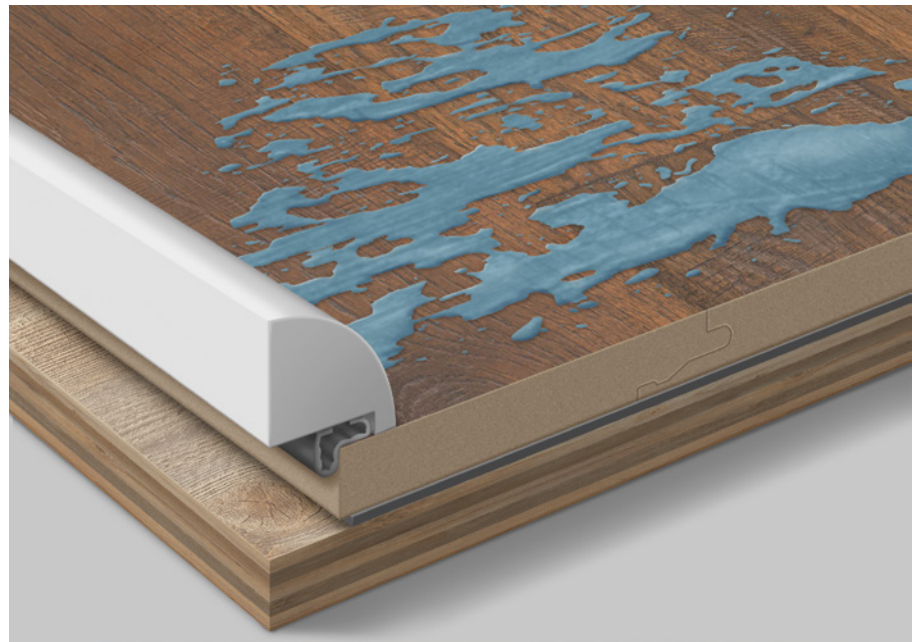

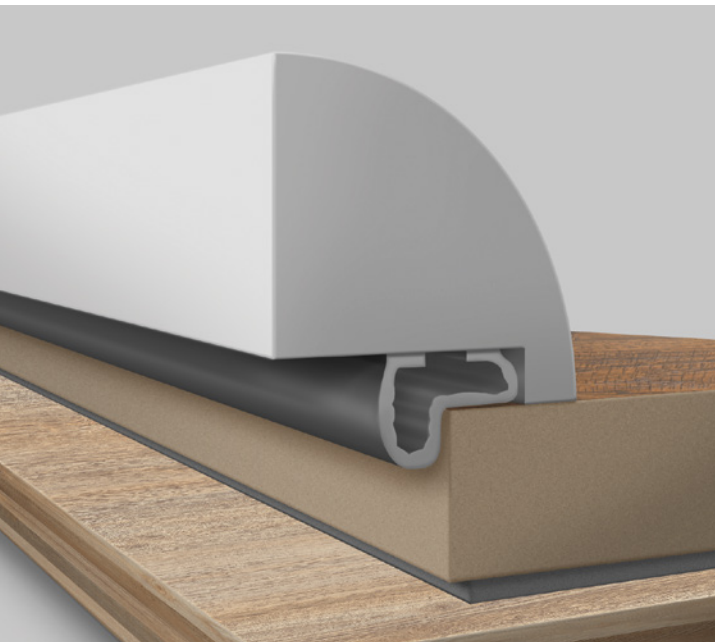

# Wall to wall waterproof.

## Introducing the new Project Source® waterproof quarter round.

This paintable waterproof moulding is designed to cover the expansion space between your waterproof floor and the wall. It provides a waterproof perimeter seal that keeps water on top of the floor where you can easily wipe it away.

**Waterproof  
Quarter Round**

Project Source® waterproof quarter round can be used for all floating floors available at Lowe's.

## A beautiful finish to every floor.

You'll find floating floors available in a wide variety of styles and materials, including laminate and luxury vinyl. Although the materials and style may differ, every floating floor requires an expansion gap between the floor and the wall.

To cover the expansion gap of your **laminate floor**, Project Source® offers wall base and quarter round in coordinating colors and prefinished white that can be painted to match existing trim.

For luxury vinyl floors, we offer prefinished white wall base and quarter round in coordinating colors and prefinished white.

Project Source moulding installs on any level of your home with nails and glue. Install it over smooth, flat or dry surfaces — even existing concrete, tile, vinyl or wood.

Quarter Round

Wall Base

### Design tip:

To better integrate your mouldings with your floors, lay out planks from multiple boxes before installing them. Then, choose the planks that most closely match your moulding color to install along the perimeter of the room.

**LOWE'S**

Look for Project Source® quarter round and wall base at your local Lowe's or online at [lowes.com](https://www.lowes.com).

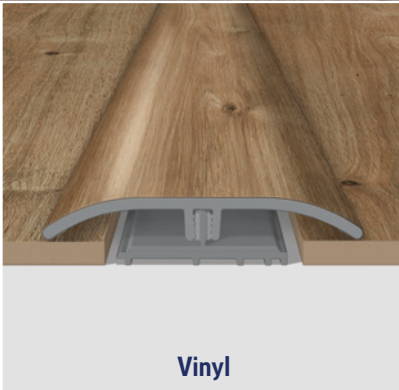

# One kit completes four transitions.

Project Source® has the right moulding for your project, no matter what the need. Our innovative 4-in-1 multifunctional transition moulding kit can be configured for use as a T-moulding, a hard surface reducer, a carpet transition and an end moulding. Just one kit joins any type of surface together for a smooth, easy transition. And the end moulding can be used to seamlessly transition to architectural features. One room generally needs more than one transition so the kit has you covered for both a transition to carpet in the hallway or tile in an adjoining bathroom. With just one kit, you're prepared for anything — saving you time and money.

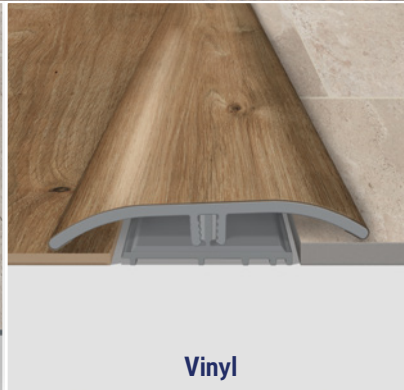

Laminate

Laminate

Vinyl

## T-Moulding

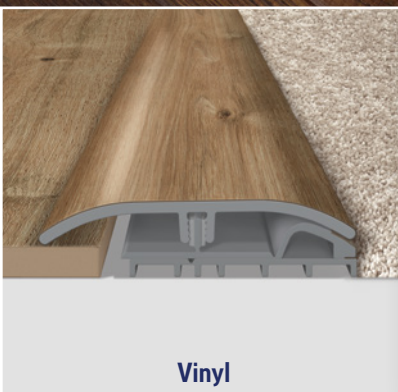

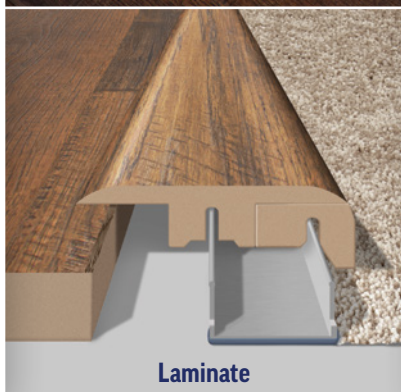

Join two hard surface floors of equal height

## Hard Surface Reducer

Transitions between two hard surface floors of different heights

- Install on any level of the home on floors up to 16mm thick
- No need to paint or stain
- Can be installed over smooth, flat, or dry surfaces — even existing concrete, tile, vinyl, or wood
- One kit contains 78-inches of moulding — enough to create two different 3-foot moulding solutions

The 4-in-1 multifunctional transition moulding kit is available in a wide range of coordinating colors and styles at Lowe's and online at [lowes.com](http://lowes.com).

### Carpet Transition

Finishes hard surface flooring where it meets carpet

### End Moulding

Finishes a hard surface floor against fireplaces, sliding doors, and more

Stair Nose

# Finish your stairs beautifully.

Integrate your floor and stairs with Project Source® stair nose moulding.

This moulding creates a seamless look while providing a wear surface for the stair's leading edge and covers the gap between the riser and the tread.
