RECHARGEABLE AREA LIGHT

The MODbox™ Area Light is designed to work on any jobsite, providing up to 1000 lumens of output. The portable area light has a MODbox™ compatible kickstand which includes 4 powerful magnets and a nail notch to mount light for hands-free use. These versatile mounting features along with a 360° rotating light head allows users to direct the light where it's needed. The area light has 3 light output modes, with a run time of up to 21-hours and is impact-resistant, capable of surviving a 9-foot drop.
