HERE'S HOW TO TAKE CARE OF ME

White Bird of Paradise

LIGHT

I grow best near a sunny window; at most 5 feet away. Direct sunlight will burn my leaves.

WATER

Water me when the top couple inches into the soil are dry, I prefer above average humidity levels. Allow water to drain thoroughly; remove any excess water.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I have upright growth that can purify the air and I am super easy to grow.

GROWING TIPS

If you grow bird of paradise outdoors in a cold-winter climate, you can bring it in for the winter. Rotate the plant every couple of weeks for even growth. Wipe the leaves down to prevent dust build up.

GIVE ME FRIENDS

(I play well with)

Aglaonemas, Ferns, or
Anthurium
