MLD-25PR

25 PSI Regulator (Drip)

Regulador de 25 PSI

This Regulator adjusts your faucet's water pressure down to 25 PSI, and is required when exclusively using Drippers with 1/2 in. Poly Tubing.

Convierta fácilmente un aspersor o cabezal con boquilla de PVC de 1/2" (1.3 cm) en un sistema de riego de bajo volumen colocando goteros o micro aspersores a la salida estriada de 1/4" (0.6 cm).

- Prevents Drippers from blowing out
- Not for continuous pressure/must be installed after Timer

MLD-25PR

Install by threading
the Regulator onto
any outdoor faucet.
Do not use a wrench
or over tighten.

Recommended for use with Drippers, this Regulator prevents water pressure from exceeding 25 PSI and helps deliver the ideal amount of water to your plants.

Con este convertidor, puede disminuir significativamente el consumo de agua debido a que los microaspersores, los goteros y las tuberías de goteo en línea riegan su jardín más eficazmente.
