Resealable!

REPELS
DEER ▪ RABBITS

Yard Gard™ Deer & Rabbit Deterrent repels deer and rabbits and prevents them from returning to treated areas for up to 90 days. Great for lawns, mulched areas, turf, golf courses, athletic fields and around shrubs. Yard Gard™ uses natural ingredients that disrupt animals' sense of smell and taste, encouraging them to leave the treated area and find food elsewhere. Our products are formulated with natural ingredients and are people and pet safe when used as directed.

READ THE ENTIRE LABEL BEFORE USE
Yard Gard™ Deer & Rabbit Deterrent is a granular deterrent product designed to deter burrowing and rooting animals. This product has not been registered by the United States Environmental Protection Agency. YARD GARD™ represents that this product qualifies for exemption from registration under FIFRA.

PRECAUTIONARY STATEMENTS
This product causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eye-wear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

DIRECTIONS FOR USE
Apply Yard Gard™ Deer & Rabbit Deterrent to active infestations or preventatively by spreader to lawns, mulched areas, turf, golf courses, athletic fields and around shrubs. Apply Yard Gard™ in a 10-foot zone completely surrounding the plants and shrubs to be protected. Ensure the product is watered in twice a week for the first two weeks; water releases the ingredients into the soil. For best results, allow 7 to 14 days for the ingredients to migrate through the soil.

COVERAGE
Active infestations: On the initial application, apply the product at a heavy rate of 4 lbs. per 1,000 sq ft.
Preventative and Follow up treatments: Apply at a medium rate of 2 lbs. per 1,000 sq ft. Reapply product every 90 days to keep a strong residual of product in the soil.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

- Storage: Store in the original package in a cool dry place and out of reach of children and pets.
- Disposal: Empty container may be disposed of in the regular trash.
- If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
- Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.
