BAHIAGRASS

BRED FOR COASTAL SOIL

PENNINGTON.

THE GRASS IS GREENER.™

We work hard every day to cultivate the best grass seed products available in the industry, so you can seed your yard with peace of mind.

NOTICE: Arbitration/conciliation/mediation required by several states. Under the seed laws of several states, arbitration, mediation, or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed, to which this notice is attached, to produce as represented. The consumer shall file a complaint along with the required filing fee with the commissioner/director/secretary of agriculture, seed commissioner, or chief agricultural officer within such a time as to permit inspection of the crops by the designated agency and the seedsman from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by state statute.

4 EASY STEPS

FOLLOW THESE INSTRUCTIONS TO WOW YOUR NEIGHBORS
EN CUATRO PASOS SENCILLOS
Siga estas instrucciones para impresionar a sus vecinos

STEP 1

NEW LAWNS

OVERSEEDING

PREPARE

FOR BARE SPOTS/NEW LAWNS:
Remove debris, then rake the soil to loosen and smooth the top layer.

PARA ZONAS CON HUECOS O CÉSPED NUEVO: Retire los desechos y luego rastrille la tierra para aflojar y suavizar la capa superior.

FOR OVERSEEDING/THIN AREAS:
Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer.

PARA RESEMBRA O ZONAS DELGADAS: Corte el césped existente lo mas corto sea posible y elimine los desechos. Luego, rastrille la tierra para aflojar y suavizar la capa superior.

STEP 2

APPLY FERTILIZER

Apply a starter fertilizer at the manufacturer's recommended rate.

APLIQUE UN FERTILIZANTE: Aplique la cantidad de fertilizante recomendada por el fabricante.

STEP 3

APPLY SEED

Spread the seed evenly using a drop, rotary or hand-held spreader according to the recommended spreader settings listed. Rake gently to work your seed & fertilizer into the soil.

APLICACIÓN: Disemine las semillas de manera uniforme con un esparcidor de caída, rotativo o manual, de acuerdo con las configuraciones recomendadas y enumeradas del esparcidor. Rastrille suavemente para que las semillas y el fertilizante germinen en la tierra.

STEP 4

WATER

Keep the soil moist by watering daily as needed until grass sprouts and reaches about 3" tall.

RIEGUE: Mantenga la tierra húmeda al regar lo que sea necesario por día hasta que el césped brote y alcance alrededor de 3 pulgadas (7,62 cm) de alto.

RECOMMENDED SPREADER SETTINGS

SPREADER TYPE	OVERSEEDING/ THIN AREAS	BARE SPOTS/ NEW LAWNS
Expert Gardener™ Push Seed Spreader	10.5	10.5"
Scotts® Turf Builder® EdgeGuard® Mini Broadcast Spreader	8	8"
Scotts® Whirl® Hand-Held Spreader	5	5"
Sta-Green® 32-lb Broadcast Spreader	5.75	5.75"

*Go over twice

ADDITIONAL CARE TIPS

- 1 Mow lawn when grass height reaches 3" tall
- 2 Avoid removing more than 1/3 of the total grass blade length at any single mowing
- 3 Hot summers can be stressful on your lawn; increase the mowing height during hot & dry periods to reduce stress on lawn

MOST IMPORTANTLY - Don't kill the grass before it starts by using weed control (pros call it preemergent) on your lawn until your grass has reached its full mowing height of 3"

Warning: Treated Seed. Do not use for food, feed, or oil purposes. Store away from Feeds and foodstuffs. Keep out of reach of children. If swallowed, call poison control. This coating protects with a fungicide to help keep seeds safe from diseases that harm them.
