

Original Krud Kutter® Concentrated Cleaner / Degreaser / Stain Remover

Nonfood Compounds
Program Listed A1
146212

2013

Technical Data

Physical Data:

Contains: Water (7732-18-5), Trisodium Salt of Methylglycinediacetic Acid (164462-16-2), Ethoxylated Alcohol (Proprietary), Sodium Metasilicate Pentahydrate (6834-92-0), Potassium Hydroxide (1310-58-3).

Physical State: Liquid

Color: Clear

Odor: Mild

pH: <12.2

Flash Point: Non-Flammable

Shelf Life: N/A

VOC: 0% (0g/L)

FOR EMERGENCY CALL:

CHEMTREC: 800.424.9300

**INTERNATIONAL: 703.527.3887
(COLLECT CALLS ACCEPTED)**

CUTS GREASE, GRIME, OIL, TAR & WAX FAST!

No other single product removes really tough soils as quickly and effectively from so many different surfaces.

COLOR FAST • FABRIC SAFE • LEAVES NO RESIDUE

DIRECTIONS: Always test on an inconspicuous area first.

Apply directly on surface to be cleaned, and allow to penetrate briefly. Wipe off with a clean cloth or towel. For older, more difficult jobs apply a generous amount of cleaner and allow to stand for a few minutes before wiping dry. For extremely tough jobs, such as the removal of old, dried latex paint, scrub with a brush or scouring pad, and wash off with a wet rag. For engine cleaning, use on a cold dry engine. Do not use on varnished surfaces or leather. Do not mix this product with any other chemicals.

CONCENTRATED COMMERCIAL STRENGTH FORMULA SAFELY & EASILY REMOVES:

Food & drink stains, dried latex paint, paint overspray, tape residue, glue & adhesive, acid rain, bird droppings, smoke damage, tree sap, grease & oil, marker & crayon, pet stains, brake dust, fireplace soot, oxidation, lipstick, scuff marks, blood stains, sun tan oil, tar & wax, chewing gum, soap scum, mildew stains, shoe polish, and more.

HEAVY CLEANING (FULL STRENGTH): BBQ Grills & Ovens; Hoods & Exhaust Fans; Tubs, Sinks & Showers; Tools & Equipment; Machinery; Tile & Grout; Whitewalls; Driveways; Engines; Floor Wax Removal. **ALL PURPOSE (1½ CUPS OF CONCENTRATE TO 1 GALLON OF WATER):** Appliances; Mini-Blinds; Canvas; Chrome; Silver; Brass; Copper; Porcelain; Plastic; Fiberglass; Linoleum; Aluminum; Vinyl; Patio Furniture; Walls & Baseboards; Carpets; Upholstery; Stainless Steel; Laundry Presoak; Wheels. **REFLECTIVE SURFACES (1½ OZ. OF CONCENTRATE TO 1 GALLON OF WATER):** Computer/T.V. Screens; Glass; Mirrors; Windows; Display Cases; Crystal; Lights; Car Wash.

SAFE - FAST - EFFECTIVE ON MOST SURFACES

Recommended for exterior siding (wood, vinyl, aluminum), roofing of all types (asphalt shingles, fiberglass shingles, cedar, tile), gutters, wood fences and decks, stucco, brick and cement block, masonry, concrete driveways, walkways and walls, even RV's, patio furniture, and boats.

COST EFFECTIVE & EASY TO USE • ONE PRODUCT DOES IT ALL

For manual application mix 1½ cups of concentrate with 1 gallon of water. When diluted 1 gallon of concentrate will clean approximately 2,500 sq. ft. (less on rougher surfaces). Can be applied by pump up sprayer, brush or roller. Simply apply to the surface, leave for 5 to 10 minutes, and wash off.

DIRECTIONS: PRESSURE WASHER APPLICATION

Contains anti-corrosive agents to safeguard pressure washer parts (bleach can erode O-rings). When using a pressure washer to clean painted surfaces, please be aware that water pressure alone may remove paint, or highlight existing discoloration caused by the sun's UV rays.

1. Rinse surrounding plants with water, before and after application.
2. Wet the surface to be cleaned, prior to applying the product.
3. Place detergent application siphon tube and screen filter directly into container. Open meter valve (if applicable) for maximum product flow. For reservoir machines, pour product (full strength) into pressure washer.
4. Spray at low pressure onto a wet surface.
5. On vertical surfaces, always spray from the top down.
6. Allow product to remain on the surface for 3 to 5 minutes to penetrate. Do not allow product to dry on surface.
7. Remove siphon tube from solution and rinse surface with high-pressure spray thoroughly.
8. Flush siphon tube with clean water prior to storage.

DIRECTIONS: CARPET CLEANING & STAIN REMOVAL

1. Safe for all carpet types, including synthetic, as well as stain resistant carpets. Please test in an inconspicuous area first.
2. Concentrated formula will clean six 9' x 12' (2.5m x 4.0m) carpets. Coverage may vary depending on type and condition of carpet.
3. Vacuum carpet thoroughly with home vacuum cleaner.
4. Pre-treat any stubborn spots or stains by using concentrate (in undiluted form) as a stain remover prior to cleaning carpet.
5. Add concentrate to the receiving/waste tank of the machine to reduce foam buildup.
6. Add 4 ounces of concentrate for each gallon of water in the dispensing/fill tank.
7. For heavy traffic areas or heavily soiled carpets, add 6 ounces of concentrate for each gallon of water.
8. Use hot (not boiling) or cold water according to the carpet manufacturer's cleaning directions. Read machine instructions carefully. Do not overfill.

CAUTION: EYE AND SKIN IRRITANT. In case of contact with eyes or skin, flush with water for 15 minutes. If irritation persists, seek medical attention. If swallowed, take large amounts of water. Do not induce vomiting. Get medical attention. Material Safety Data Sheet available. **KEEP OUT OF REACH OF CHILDREN.**
