1 Way Sprinkler Converter

Convertidor de dos salidas para rociador

Easily convert a 1/2 in. PVC sprinkler or shrub head to low-volume by attaching Drippers or Micro Sprays to the 1/4 in. barbed outlet.

Convierta fácilmente un aspersor o cabezal con boquilla de PVC de 1/2" (1.3 cm) en un sistema de riego de bajo volumen colocando goteros o micro aspersores a la salida estriada de 1/4" (0.6 cm).

- Reduces water usage

1 Begin by removing the existing shrub or sprinkler head.

2 Now thread the One Way Converter onto the 1/2 in. PVC Riser.

3 To finish, attach 1/4in. Vinyl Tubing to the barbed outlet and run a Stake Assembly or multiple Drippers.

With this Converter you can greatly reduce water usage by irrigating your landscape more efficiently with Micro Sprays, Drippers and In-Line Drip Tubing.

Con este convertidor, puede disminuir significativamente el consumo de agua debido a que los microaspersores, los goteros y las tuberías de goteo en línea riegan su jardín más eficazmente.
