STEP 1 Install the back.

Attach D to C, and secure with 4 M screws.

STEP 2 Install the sides.

Attach A and B to the back, and secure with 8 M screws.

STEP 3 Install the top , and bottom frame bar.

Hook in E and F into sides, and secure with M screws.

Mx10

STEP 4 Install the top, and bottom panels .

Put H in, lift G up and secure with M screws.

STEP 5 Install the foot stand and adjustable foot.

If the height is perfect for you, then no need to install the feet, you can skip this step.

Manually bend the standing foot into shape and twist the adjustable foot in.

Mx16

STEP 6 Install the shelf.

First to clip in L and then put I on it.

1. Insert bending side first
2. Fall down the flat side to secure

Now shelf can safely sits on it
Make sure the clips at 4 corners
are at the same height.

Lx16

STEP 7 Install the doors.

1. First to insert R (you may need to add 1-2 Qs) into the holes on bottom frame bar, put L in.
2. Then press down the top hinge spring to insert the L.
3. Install the lock.

2

If you can't find the top hinge spring, it may have been pressed into the door frame. Simply use a screwdriver to gently pry it out.

To change the passcode: insert a pin into the small hole on the side and change the passcode. Release once the password is changed.
