

# THE ROOFING COLLECTION PRODUCT GUIDE

NATIONAL

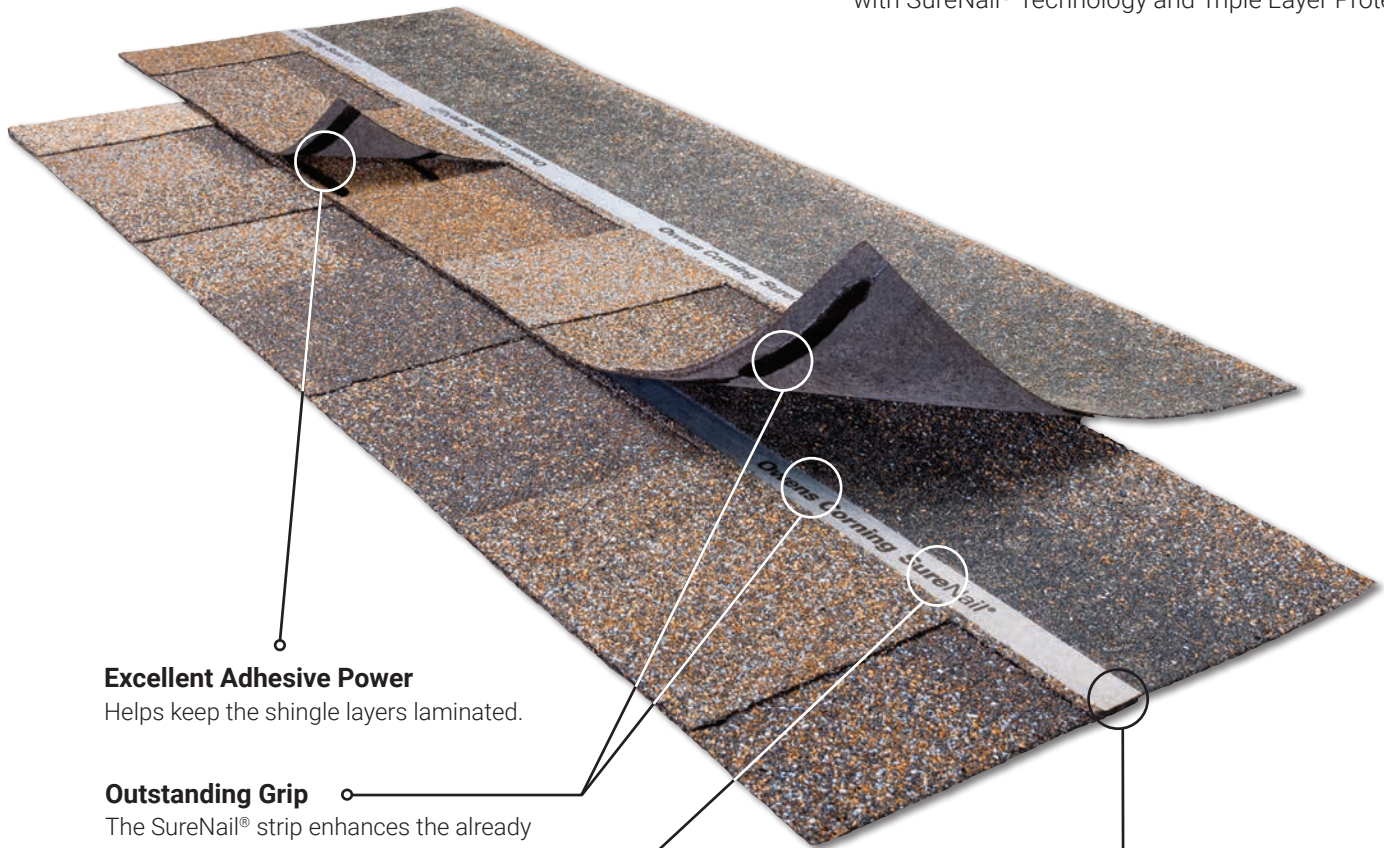

THERE'S A LINE BETWEEN A GOOD SHINGLE  
AND A GREAT SHINGLE.®

## DURATION® SERIES SHINGLES

with SureNail® Technology and Triple Layer Protection®

### Excellent Adhesive Power

Helps keep the shingle layers laminated.

### Outstanding Grip

The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond®\*\* sealant for exceptional wind resistance of a 130-MPH wind warranty.\*

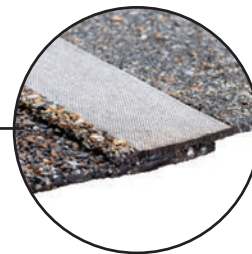

### Breakthrough Design

Patented SureNail® Technology is the first and only reinforced nailing zone on the face of the shingle.

### "No Guess" Wide Nailing Zone

This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

### Triple Layer Protection®+

A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against "nail pull" from the wind.

### Double the Common Bond

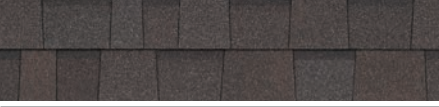

SureNail® features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.

Sand Castle<sup>1</sup>  
Only Available in Service  
Area 13.

Colors available in Service Areas 11, 12, 13.

## COLOR DISCLAIMER

As color experts, we know getting the shingle color right is a big part of any roofing purchase. Due to printing color variations, in addition to viewing shingle literature, we suggest you request an actual shingle sample to see how it will appear on your home and with your home's exterior elements in various natural lighting conditions. Lastly, we recommend you verify your color choice by seeing it installed on an actual home; your roofing contractor or supplier can provide a sample and may be able to direct you to a local installation.

Woodcrest® Shingles are designed to enhance your home with the natural appearance and texture of wood shake but with greater durability and less maintenance.

- Limited Lifetime Warranty<sup>\*/†</sup> (for as long as you own your home)
- 110/130-MPH Wind Resistance Limited Warranty<sup>\*/‡‡‡</sup>
- StreakGuard® Protection with a 25-year Algae Resistance Limited Warranty<sup>3/§</sup>

## RATED CLASS 3

Pass UL 2218 and FM 4473 testing for Class 3 Impact Resistance.

Qualifying Owens Corning Hip & Ridge Shingles may be required to complete a UL 2218 and/or FM 4473 Class 3 Impact-Resistant Roof System. Due to the variability in real storm conditions, a Class Rating on any product does not guarantee that it will withstand damage from hailstorms or other acts of God. Owens Corning shingles are not covered under a warranty for hail damage.

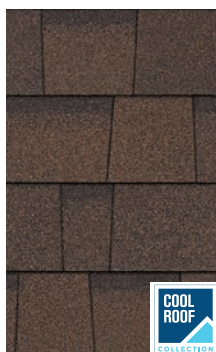

Duration® COOL Plus Shingles are designed with solar-reflecting granules to meet or exceed an aged SRI of 20 — the current aged Solar Reflectance Index minimum required for the Green Building Standards Code of Los Angeles County and Los Angeles City Cool Roofs Ordinance.

- TruDefinition® Color Platform
- Patented SureNail® Technology
- Limited Lifetime Warranty\*† (for as long as you own your home)
- 130-MPH Wind Resistance Limited Warranty\*
- Coordinates with color-matched Owens Corning® Hip & Ridge shingles for a finished look
- Rated Class 3 for Impact Resistance⁶ and may qualify for a homeowner insurance discount⁷

except where noted above.

## TOTAL PROTECTION SIMPLIFIED®

It takes more than just shingles to protect a home. It takes an integrated system of components and layers designed to perform in three critical areas. The Owens Corning® Total Protection Roofing System® gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof.

### SEAL.

Helps create a waterproof barrier

### DEFEND.

Helps protect against nature's elements

### BREATHE.

For balanced attic ventilation

Hip & Ridge shingles

Laminate shingles

Starter shingles

Exhaust vents

Intake vents®

Self-adhered ice & water barrier

Synthetic underlayment

+ COMFORT.

Add comfort and energy performance  
PINK® Fiberglas™ blown-in attic insulation

® For intake ventilation, use approved Owens Corning® Vent Sure® InFlow ventilation or soffit ventilation. Do not use both intake ventilation options in one roofing application. See install instructions for more details.

# TOTAL PROTECTION. TOTAL CONFIDENCE.®

## SEAL.

### Self-Adhered Ice & Water Barrier

- Helps protect the roof where water tends to collect or flow, including valleys, eaves, chimneys, and skylights.
- Helps prevent damage associated with shingle blow-off, wind-driven rain and ice damming.

#### Recommended Product Options:

- WeatherLock® G
- WeatherLock® Mat
- WeatherLock® Flex
- WeatherLock® Specialty Tile & Metal
- Titanium® FR
- Titanium® PSU30
- RhinoRoof® Granulated

### Synthetic Underlayment

- Provides a water shedding barrier under shingles for the roof's last line of defense.
- Helps guard against damage from wind-driven rain.

#### Recommended Product Options:

- DeckDefense®
- ProArmor®
- Titanium® UDL25
- Titanium® UDL30
- Titanium® UDL50
- Titanium® X30
- RhinoRoof® U20

## DEFEND.

### Starter Shingles

- Helps provide a clean look with a straight edge along the eaves and the rakes of the roof.
- Helps ensure an effective seal with the first row of shingles to help prevent shingle blow-offs due to high winds and water infiltration.

#### Recommended Product Options:

- Starter Strip Plus
- Starter Shingle Roll
- WoodStart® Starter Shingles

### Hip & Ridge Shingles

- Add extra protection and stylish dimension along the hips and ridges – areas that are vulnerable to high winds.
- Designed to match and complement Owens Corning® shingles.

#### Recommended Product Options:

- DecoRidge®
- ProEdge®
- DuraRidge®
- ImpactRidge®
- RIZERidge®

## Intake Ventilation

- Helps replace the warm, humid air in the attic with cool, dry air to help protect the interior components of the roofing system from heat and moisture damage which helps eliminate problems such as ice damming and premature shingle deterioration.

### Recommended Product Options:

- VentSure® InFlow® Intake Vent

## Exhaust Ventilation

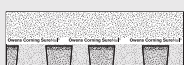

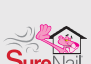

- Optimally designed to work together with our VentSure® intake ventilation products, ridge and off-ridge exhaust ventilation helps create a balanced flow where warm, humid air is continuously replaced by cool, dry air.

### Recommended Product Options:

- VentSure® 4-Foot Strip Vent
- VentSure® RidgeCat® Rolled Ridge Vent
- VentSure® Rigid Roll Vent
- VentSure® Metal Slant Back Roof Vent

  - ‡ 40-year Limited Warranty on commercial projects.
  - \*\* Tru-Bond® is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning.
  - ‡‡ 130 MPH is applicable only with Owens Corning® Starter Shingle product application along eaves and rakes in accordance with installation instructions. Refer to installation instructions for complete details.
  - ‡‡‡ 110 MPH is standard with 4-nail application. 130 MPH is applicable only with 6-nail application and Owens Corning® Starter Shingle products application along eaves and rakes in accordance with installation instructions.
  - + The amount of Triple Layer Protection® may vary on shingle-to-shingle basis.
  - ++ Only on products sold in Canada.
  - # International Code Council Evaluation Services Acceptance Criteria for Alternative Asphalt Shingles.
  - ^ Excludes non-Owens Corning® roofing products such as flashing, fasteners, pipe boots and wood decking.
  - 1 See Color Disclaimer Information on page 4 for additional details.
  - 3 Shingles are algae resistant to help control growth of algae and discoloration.
  - § Installation must include use of an approved Owens Corning® Hip & Ridge Shingle product. See actual warranty for details.
  - ‡‡ Available regionally; visit [www.owenscorning.com/roofing](http://www.owenscorning.com/roofing) for details.
  - 4 Owens Corning® Black Sable shingle includes a patented design.
  - 5 Owens Corning® Bourbon and Midnight Plum shingles include a patent pending design.
  - 6 Qualifying Owens Corning Hip & Ridge Shingles may be required to complete a UL 2218 and/or FM 4473 Class 3 Impact-Resistant Roof System. Due to the variability in real storm conditions, a Class Rating on any product does not guarantee that it will withstand damage from hailstorms or other acts of God. Owens Corning shingles are not covered under a warranty for hail damage.
  - 7 Homeowners should check with their insurance company to see if they qualify.
  - 8 ImpactRidge® Hip & Ridge Shingles are required to complete UL 2218 and/or FM 4473 Class 4 Impact-Resistant Roof System. Due to the variability in real storm conditions, a Class Rating on any product does not guarantee that it will withstand damage from hailstorms or other acts of God. Owens Corning shingles are not covered under a warranty for hail damage.
- SureNail® Technology is not a guarantee of performance in all weather conditions.
