

mélangez pas des piles usagées et des piles neuves ou différents types de piles (ordinaires, alcalines ou rechargeables).

rétractable.

The diagram shows a lamp assembly. At the top is a lamp with a glass globe. Below it is a rectangular unit labeled 'Détecteur Titi'. To the right of this unit is a switch labeled 'Marche / Couverture'. Wires connect the lamp to the 'Détecteur Titi' unit, and the unit to the switch. The switch has a lever that can be moved up or down.

Requires 3 "AAA" alkaline batteries (not included)
Fonctionne avec 3 piles alcalines "AAA" (non fournies)
Requiere 3 baterias alcalinas "AAA" (no asián incluidas)
