FOR NEW LAWNS OR OVERSEEDING

FOR AREAS GETTING
4-6 HOURS OF SUN

40% MORE ROOTS[†]

SEE RESULTS IN
8-16 DAYS

COVERS UP TO

5,000 SQ. FT.

20 LBS
9.07 Kilograms

COATED SEED

This bag contains up to 53% coating material. See product label for more information.

TALL FESCUE GRASS SEED BLEND
FOR NEW LAWNS OR OVERSEEDING

COVERS UP TO **5,000 SQ. FT.**
20 LBS
9.07 Kilograms

BETTER ROOTS. BETTER RESULTS.

The roots of The Rebels® Brand dates back to 1979, when turf researchers at Rutgers University released a revolutionary new grass.

Known as 'Rebel,' it was the very first example of what's now known as turf-type tall fescue. Compared to traditional tall fescue, Rebel offered lower growth, finer texture, darker color and denser turf — plus the drought tolerance that makes turf-type tall fescue a homeowner favorite. Generations later, with up to 40 percent more roots* than ordinary grass, The Rebels® Brand Extended Root seed varieties represent the best turf-type tall fescue on the market. With roots like those, it's only natural that The Rebels® Brand carries the Pennington name.

IS TALL FESCUE THE RIGHT SEED FOR YOUR LAWN?

Tall fescue is valued for its adaptability to a wide range of climates and its tolerances for cold, heat, drought and shade. Ideal in the northern and transition zones, The Rebels has provided the finest quality of tall fescue on the market for decades.

| FEATURED CHARACTERISTICS OF TALL FESCUE | | | IDEAL FOR NEW LAWNS OR OVERSEEDING |
|--|------------------------------------|---|--|
| sun requirement 4-6 HOURS | planting depth 1/4" | see results in 8-16 DAYS | mowing height 3" |
| SUN TOLERANCE EXCELLENT | SHADE TOLERANCE GOOD | DROUGHT TOLERANCE VERY GOOD | DISEASE RESISTANCE EXCELLENT |
| TRAFFIC RESISTANCE EXCELLENT | | | |

WHERE WILL THIS SEED GROW BEST?

WHEN SHOULD THE SEED BE PLANTED?

Early Spring or early Fall

HOW MUCH SEED SHOULD BE USED?

| | |
|-------------|----------------------|
| New Lawns | 12 lbs / 1,000 sq ft |
| Overseeding | 4 lbs / 1,000 sq ft |

4 EASY STEPS FOLLOW THESE INSTRUCTIONS TO WOW YOUR NEIGHBORS

EN CUATRO PASOS SENCILLOS: Siga estas instrucciones para impresionar a sus vecinos

STEP 1

PREPARE

NEW LAWNS

OVERSEEDING

FOR BARE SPOTS/NEW LAWNS: Remove debris, then rake the soil to loosen and smooth the top layer.

PARA ZONAS CON HUECOS O CÉSPED NUEVO: Retire los desechos y luego rastille la tierra para aflojar y suavizar la capa superior.

FOR OVERSEEDING/THIN AREAS: Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer.

PARA RESEMBRA O ZONAS DELGADAS: Corte el césped existente lo mas corto sea posible y elimine los desechos. Luego, rastille la tierra para aflojar y suavizar la capa superior.

STEP 2

APPLY FERTILIZER

Apply a starter fertilizer at the manufacturer's

STEP 3

APPLY SEED

Spread the seed evenly using a drop, rotary or hand-held spreader according to the recommended spreader settings listed. Rake gently to work your seed & fertilizer into the soil.

APLICACIÓN: Disemine las semillas de manera uniforme con un esparcador de caída, rotativo o manual, de acuerdo con las configuraciones recomendadas y enumeradas del esparcador. Rastille suavemente para que las semillas y el fertilizante germinen en la tierra.

STEP 4

WATER

Keep the soil moist by watering daily as needed until grass sprouts and reaches about 3" tall.

RIEGUE: Mantenga la tierra húmeda al regar lo que sea necesario por día hasta que el césped brote y alcance alrededor de 3 pulgadas (7,62 cm) de alto.

ADDITIONAL CARE TIPS

- 1** Mow lawn when grass height reaches 3" tall
- 2** Avoid removing more than 1/3 of the total grass blade length in any single mowing
- 3** Hot summers can be stressful on your lawn; increase the mowing height during hot and dry periods to reduce stress on your lawn

MOST IMPORTANTLY - Don't kill the grass before it starts by using weed control (pros call it preemergent) on your lawn until your grass has reached its full mowing height of 3"

RECOMMENDED SPREADER SETTINGS

| SPREADER TYPE | OVERSEEDING/ THIN AREAS | BARE SPOTS/ NEW LAWNS |
|--|-------------------------|-----------------------|
| Expert Gardener™ Push Seed Spreader | 14.5 | 15' |
| Scotts® Turf Builder® EdgeGuard® Mini Broadcast Spreader | 12 | 15' |
| Scotts® Whirl® Hand-Held Spreader | 5 | N/A |
| Sta-Green® 32-lb Broadcast Spreader | 10.5 | 15' |
