

Van Zyverden's
LILY PERFECT JOY FOR PATIO AND CONTAINERS

Lilies are one of the truly great garden plants, as they are beloved by gardeners everywhere. Their beauty, diversity, extended season of bloom, graceful stature and overall reliable disposition reflect the fruits of hundreds of years of selective breeding. In Chinese, the word "Lily" means "forever in love." The liliaceae family is so large, varied and complex that it is challenging to describe them in short. Lilies are deer and critter resistant. Plant just about anywhere - borders, beds, cutting gardens, perennial gardens, pots and containers.

ideal for containers

*as a perennial they
will return year after year*

dwarf asiatic variety

About This Variety: Perfect Joy lilies are large -flowered with healthy dark green foliage and large, trumpet shaped, strawberry-pink flowers with a soft white center. Very upright stems, blooming summer and fall. Good choice for containers.

Growing Instructions: Plant in well-drained soil where they will receive 6-8 hours of sun a day. They are winter hardy and considered a strong perennial that can be left in the ground and will re-bloom year after year if the conditions are right. Keep them mulched well.

Care Tip: Lilies prefer cool soil, which argues for shade at their feet from low growing companions. When cutting the flowers for bouquets, remove no more than 1/3 of the stem so sufficient leaves remain to renew the bulb for the coming year.

Exposure: full sun to partial shade

Height: grows 18-30" tall

Spacing: 3-4" deep

USDA Zones: hardy in USDA zones 3-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
