PREPARATION

Before beginning assembly of product, make sure all parts are present.
Compare parts with package contents list and hardware contents list.
If any part is missing or damaged, do not attempt to assemble the product.

Estimated Assembly Time:15 Minutes

Tools Required for Assembly (not included): Ladder, Hammer, Tape measure, Stud finder, pencil, power drill and 1/8 in. drill bit, Phillips Screwdriver and framing square.

SAFETY INFORMATION

Please read and understand this entire manual before attempting to assemble, operate or install the product. If you have any questions regarding the product, please call customer service at 888-3KOBALT (888-356-2258), 8 a.m - 8 p.m., EST, Monday - Sunday. You could also contact us at partsplus@lowes.com.

WARNING

PERSONAL INJURY HAZARD

Failure to properly install according to the manufacturer's guidelines could result in serious injury or death.

WARNING

ELECTRICAL, PLUMBING OR GAS LINES MAY BE IN WALL.

Before cutting, drilling or hammering verify their location. If needed, contact your electrician, plumber, or service person.

WARNING

POTENTIAL FALL HAZARD

During installation of this item, avoid overreaching and overextending while on a ladder.

CAUTION

POTENTIAL EYE HAZARD

Wear protective eyewear during installation.

ASSEMBLY INSTRUCTIONS

1. Locate the desired position for the first vertical Post (A) on the exposed wall joist. Mark the location and drill a small pilot hole (1/8 in). Using the top-hole position of the Post (A), use screw (AA) and screw it in place to the wall joist.

NOTE: Make sure it is NOT fully tightened in place and allows for swinging side to side.

Hardware Used

AA ST5 x 40 mm  x 1

2. With only the top-screw in place, rotate the Post (A) 90-degree in the desired direction. Place a level on the top of the Post (A), that has been rotated 90-degree. Note: Make sure it is level and that the bottom hole of the Post (A) is on-center with the new joist. Mark the spot on the new joist using the bottom hole of the Post (A). Drill a small pilot hole (1/8 in) in this location.

3. Tighten the screws (AA) for each hole on both Posts (A).

Hardware Used

AA ST5 x 40 mm  x 9

ASSEMBLY INSTRUCTIONS

4. Place 3 Left Brackets (C) onto the Post(A) from the bottom up to the top as the installation procedure by upper picture showing. Using the Hammer hit the Brackets(C) down, ensure the hook touching tighten to the Post(A) as shown. Same to the Right Brackets(D).

NOTE: You can adjust the Bracket distance as needed.

5. Place Shelf (B) onto the Brackets (C & D) from the bottom up to the top, as the installation procedure by upper picture showing. Secure the Shelf (B) to the Brackets (C & D) using Bolt(BB) and Washer (CC) tighten by a Phillips Screwdriver.

Hardware Used

BB M6 x 10 mm		x 4
CC $\Phi 14 \times 1.0 \text{ mm}$		x 4

6. Same to the other shelves as above process.

NOTE: Before installation, lay tools and components on a table or flat surface.

Hardware Used

BB M6 x 10 mm		x 4
CC $\Phi 14 \times 1.0 \text{ mm}$		x 4

IMPORTANT: Using extreme caution, test the unit immediately after proper installation with a light load to double check unit is secured to the wall joint.

OPERATING INSTRUCTIONS

The Shelves are hardly to be placed onto the Brackets.
Mounting Post distance is more than 32-in.
Re-locate post distance mounting post distance to be 32-in as required.
Follow extreme caution when loading and unloading items from the 3-PC Shelf Kit. Weight load capacity is up to 150-lb per per shelf evenly distributed.

CARE AND MAINTENANCE

On an annual basis, it is recommended to double check all connections and re-tighten all nuts and bolts. Clean with water and a paper or cloth towel as needed.
