107134 Highland 6032 RH

These guidelines are recommended by Maax Bath Inc. (hereafter "MAAX") for the proper installation of their product. A careful review of these procedures (and any referenced publications) before starting is important in avoiding unnecessary problems resulting in an improper assembly or installation.

**NOTE:** All drawings in this publication are typical, and may appear different than the actual items being installed. In addition, optional items may be shown on the units which may not have been ordered on the unit being installed.

### Special Notes to Installer

- \* It is the sole responsibility of the installer to determine, prior to the installation, the requirements necessary for compliance with all codes involving the unit or the installation!
- \* All paperwork packaged with the unit and any associated options or accessories should be saved and presented to the homeowner upon completion of the installation!
- \* All published unit dimensions are for reference only. Any critical dimensions required for installation should be taken directly from the unit being installed!
- \* Any independent changes made to the unit (or to any options and accessories supplied with the unit) beyond those required for normal installation can void all warranties! (Refer to warranties for further information.)

### Inspection Guidelines

A careful check of the unit should be conducted upon receipt. Notify your supplier immediately if any questions or problems are encountered during this process.

**DO NOT INSTALL ANY UNIT  
WITHOUT FIRST ADDRESSING  
QUESTIONS WHICH ARISE DURING  
THE INSPECTION!**

### Basic Module Check

- ✓ Check that the unit drain matches the bathroom drain location.
- ✓ Check for unit surface damage.
- ✓ Check unit color for coordination to other bathroom fixtures.

### Options/Accessories Check

An individual check list is included with the assembly and installation guidelines of factory authorized options. Refer to listed publications for further information before continuing.
