

EN: Notice

- 50% tighten before fixing all screws. Allen wrench is recommended instead of an electric drill.
- Place the item on a flat ground to adjust and make sure it remains stable.
- Tighten up all screws with tools gradually.
- If the screws are not aligned with holes during assembly, please loosen all the other screws to 50% and continue the assembly process.
- If the item is not stable, please loosen all the screws, adjust it on a flat ground and tighten up all screws again.
- Note: If one or some screws are fully tightened during assembly, the others may not be aligned with the holes. In addition, all the holes are designed to be relatively larger to provide more space for the adjustment of the screws.

FR: Remarque

- Serrez à 50% avant de fixer toutes les vis. Une clé Allen est recommandée au lieu d'une perceuse électrique.
- Placez l'article sur un sol plat pour l'ajuster et assurez-vous qu'il reste stable.
- Serrez progressivement toutes les vis à l'aide d'outils.
- Si les vis ne sont pas alignées avec les trous pendant l'assemblage, veuillez desserrer toutes les autres vis à 50% et poursuivre le processus d'assemblage.
- Si l'article n'est pas stable, veuillez desserrer toutes les vis, l'ajuster sur un sol plat et resserrer toutes les vis.
- Remarque : Si une ou plusieurs vis sont complètement serrées pendant l'assemblage, les autres peuvent ne pas être alignées avec les trous. En outre, tous les trous sont conçus pour être relativement plus grands afin d'offrir plus d'espace pour le réglage des vis.
