24PC

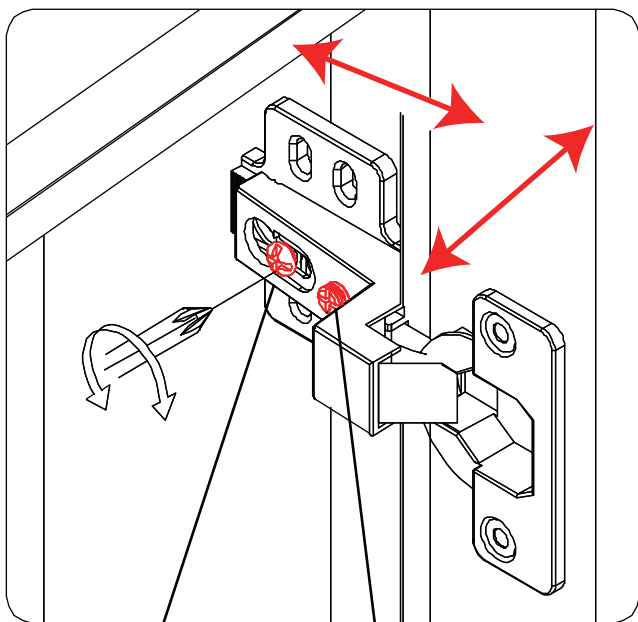

Note: To make the gap even around the door, you can adjust the door by tightening or loosening the two screws on the hinges.

1. Left and right adjustment:
When the #1 screw is tightened, the door will move to the left when it is closed, and when it is loosened, it will move to the right.

2. Front and rear adjustment:
First loosen the #1 screw, then loosen the #2 screw, adjust the distance you need, and then tighten the #2 screw.
