for a faster and better solution .

ATTENTION

- 1 . Please check each part before installation .
- 2 . Please turn off the power supply in your home before hard-wiring it .
- 3 . Please use this product in a dry environment .

QUESTION & ANSWER

Q: After powering on, my lamp doesn't work. What should I do?

A: First, make sure your bulbs are working well. If your bulbs work, but not on the lamp, please pull the legs of the bulbs to the sides. This operation is to ensure that the bulb makes good contact with the copper in the bulb socket.

FACTORY STORY

Our first factory was established in 2000 , and we have since specialized in farmhouse-style lamps and have supplied over 1 million products throughout the world for over 20 years . Our factory is involved in ceiling lights , pendant lights , chandeliers , wall lights , and island lights , and we are dedicated to solving the basic problems of daily lighting for our customers .

INSTALLATION

Step 1

Step 2

Step 3

Step 4

Installation Steps:

1. Twist the 4 tubes one by one from the bottom to the top and connect them accordingly to make them assemble into a lamp pole.
2. Screw the crystal harnesses to the holes of the globe base (please don't cut off the zip ties).
3. Insert the bulbs into the floor lamp. (Bulbs not included).
4. When you finish the installation, you can cut off the zip ties.
