

**279400
MLS-POTSTK**

1 Punch a hole in the 1/2" Poly and connect 1/4" Vinyl using a 1/4" Coupler.

2 Connect 1/4" Vinyl by pressing the barb at the top of the stake into the end of the 1/4" Vinyl.

3 Shut off flow to individual stakes by turning the valve at the top of the stake.

With a water pressure of 40 PSI you can run up to 300 feet of 1/2" Poly, and install up to 70 of these Pot Stakes. We recommend using our 50 PSI Pressure Regulator (MLA-58).

Con una presión de agua de 25 PSI, puede tender hasta 300 pies (152.4 m) de tubería de poli de 1/2" (1.3 cm), e instalar hasta 30 de estos goteros. Recomendamos usar nuestro regulador de presión de 25 PSI (MLD-25PR) y nuestro filtro para grifos (MLFF-41).
