TILE RAIL SAW

DELIVERING A POWERFUL & PROFESSIONAL DESIGN

The new Norton Clipper tile rail saw is a self-contained, portable, and lightweight machine, loaded with a rugged steel body capable of cutting tiles up to 48" long. The intuitive design, with foldable legs and multiple carrying points makes it easy to carry and load in different directions. Our reinforced uprights allow this saw to be stored standing on end for less space when unused, making it one of a kind!

NORTON

SAINT-GOBAIN

clipper®**TILE RAIL SAW****CTR1042L**

The heavy-duty rail and tilting cutting head are ideal for cutting long tiles and for making precise cuts. The machine can be easily stored standing on end with the reinforced uprights and can be maneuvered easily with the incorporated folding legs and transport wheels.

The cutting bed table allows cutting tiles up to 48" long when performing a plunge + rip cut. The built-in miter cut capability allows the cutting head to be adjusted from 0° to 45°, and the included side table extension accommodates wide tiles. Every new CTR1042L saw includes a Norton Clipper diamond tile blade.

If cutting materials longer than 48" or heavier than 125 lbs., refer to the Norton Clipper CST Series Rail Saws.

PRODUCT FEATURES

- Sturdy foldable legs - easy to deploy or take down by one operator.
- Transport wheels
- Removable transport handles
- Ability to store the saw standing on end for less space
- 1.5 HP motor with low amperage draw
- Ability to plunge + rip cut 48" long tiles
- Steel (no plastic) water pan tray
- Side table extension
- Angle rip guide
- 10" Norton Clipper tile diamond blade is provided with every new CTR1042L saw
