

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1. Adjust the extension rods to the desired height, and secure them between the fixture body and the canopy.
 2. Secure the mounting plate to the junction box using the provided screws.
 3. Wiring Connections
 - Use wire connectors to connect the fixture's positive (hot) wire, negative (neutral) wire and ground wire to the corresponding wires in the junction box.
 - Ensure no exposed conductors remain outside wire connectors or outside the junction box.
 4. Secure the canopy to the mounting plate using the decorative nuts.
 5. Place the glass lampshades onto the light holders, and secure them with the retainer rings.
 6. Install the bulbs into the sockets. (Bulbs Not Included)
 7. Restore power and verify the light operates correctly.
- Installation Complete.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
