

Knok™ - Quick Start Guide

1

Download the **Momentum App** from the Appstore.

2

Create a **Momentum account**.

3

Select the Momentum Knok device and follow the **in-app instructions**.

Quick Tips

1. Make sure your Wi-Fi router can provide a **strong signal** to the doorbell.
2. Use the provided **angle brackets** (if necessary) to get the best angles for your video monitoring.
3. To easily remove the color case, **stretch one side** of the case outward to release the clamps, then pull the case out.
4. Create **Rules** in the app to automatically record motion events.
5. Customize **motion zones** to eliminate false alerts.

Momentum Capture Cloud Storage

With Momentum Capture get motion alerts and access video clips for the past 24 hours absolutely FREE!

Get additional days of clip access and even more benefits with our other Momentum Capture plans.

Visit momentumcam.com for more details.
