Care and Maintenance

- Use a soft, clean cloth that will not scratch the surface when dusting.
- There's no need to use furniture polish. If you need, test it first in an inconspicuous area. Using solvents of any kind on your furniture may damage the finish. Never use water to clean your furniture as it may cause damage to the finish.
- Liquid spills should be removed immediately. Gently blot the spill with a soft clean cloth to avoid rubbing.

Further advice about the furniture care

- It is best to keep your furniture in a climate-controlled environment.
- We recommend to keep furniture from sunlight exposure to avoid possible surface damage.
- Following these important and helpful tips will help retain your furniture's performance even when it ages.
- Periodically (every 90 days) make sure the screws are fully tightened.

Step2

Step3

Step4

- 1) There are 5 positions for the chair. The chair you receive lies flat, this is position 0 which is not recommended because you might fall off the chair. Position 4 and 5 are better choices. Position 1/2/3 are recommended for use with ottoman and keep your head lower than the backrest.
- 2) Pull the backrest forward into the position you wish with the sound of "click" (the sound represents lock).
- 3) It can't return to the previous position once locked, you need to restart the reclining system: pull the backrest forward to the end, then the backrest reclines back to lay flat.

Step5

You can adjust leveling feet for balance
