

	Twister® ProFLEX™ PLUS Wire Connector		Model 345																																																													
FEATURES/BENEFITS:																																																																
		• Swept wing design provides extra leverage for maximum torque • Wide range, expanding spring handles small combinations and expands to accommodate large combinations when you need it • Copolymer shell expands for smooth, progressive tightening ensuring dependable connections • Flexible skirt increases protection without requiring added space in tight boxes • Quick to take-up on even the toughest combinations, including solid-to-stranded																																																														
ELECTRICAL:																																																																
Voltage: General: 600V Max. Signs/Luminaires: *1000V Max. in Fixtures and Signs																																																																
PHYSICAL:			STANDARDS & SPECIFICATIONS:																																																													
Housing: Thermoplastic polypropylene with thermoplastic elastomer Insert: Steel Plating: Zinc Temperature: 105°C (221°F)			UL 486C UL 94V-2 Flame retardant shell cUL Listed to CSA C22.2 No. 188-8 RoHS Compliant																																																													
WIRE RANGE: – Solid and/orstranded wire combinations unless stated otherwise – Consult websitefor other combinations not listed																																																																
Strip Length: 1/2" (13mm)
