

FRASER HILL FARM®

Lightly Flocked Decor Collection

Spruce up your holiday decor with an artificial wreath or garland from Fraser Hill Farm. They bring all the realistic detail of live decor with timeless elegance that lasts year after year.

Made with flame-retardant and non-allergenic materials, this Christmas classic is the perfect alternative to the real thing. Snowy, lifelike needles seem to be lightly covered with the first snowfall of the year. Accented with natural pinecones and artificial red berries, this collection radiates a festive spirit, whether you're decking the halls indoors or out.
