Profile: Twin Wall

Applications:

Designed for open-sided, well-ventilated projects, patio covers, animal enclosures, deck skirting, under decking, awnings, & more!

SeaCoaster Advantages:

- Durable, will not rust or corrode
- Economical option
- UV inhibited
- Chemical resistant

Available in:

26" width x 8' & 12' lengths

SeaCoaster Load Support Table:

PSF	20	30
Purlin Spacing	24"	16"

Applications:

Patios, deck and pergola covers, stables, wood storage, canopies, outbuildings, carports, & more!

Shade Advantages:

- Provides 100% shade
- Vibrant, long-lasting colors
- High impact strength
- Good thermal insulation
- Lightweight, yet rigid

Available in:

26" width x 8' & 12' lengths

Shade Load Support Table:

PSF	25	30	40
Purlin Spacing	24"	16"	12"

Applications:

Greenhouses, patio & deck covers, pergolas, gazebos, garden sheds, carports, utility storage, skylights, porch roofs, awnings, & more!

PolyCarb Advantages:

- Long-lasting performance - virtually unbreakable
- Hail resistant
- Retains color and opacity
- Blocks 100% of UV radiation
- Withstands extreme temperatures (-40°F to +212°F)
- High wind & snow load

Available in:

26" width x 8' & 12' lengths

PolyCarb Load Support Table:

PSF	10	15	30	45
Purlin Spacing	36"	30"	24"	16"

Applications:

Greenhouses, area partitions, pool enclosures, skylights, canopies, sunrooms, window glazing, & more!

MultiWall Advantages:

- High light transmission
- Better R value than corrugated panels
- Diffused light
- Blocks 100% of UV radiation
- Virtually unbreakable
- Lightweight, yet rigid

Available in:

36" & 48" widths x 8' length

MultiWall Load Support Table:

PSF	10	30	50	60
Purlin Spacing	30"	24"	20"	16"

Tip: Always pre-drill holes prior to fastening panels. The hole diameter should be 5/16".
