

**WHAT IS**  
**PEA GRAVEL?**

Small, fluid stones  
found near bodies of  
water.

**Installing Pea Gravel**

- 1. Level soil slightly deeper than desired stone layer depth.
- 2. Remove any weeds
- 3. Tamp down soil
- 4. Install edge barrier of choice.
- 5. Lay out landscape fabric.
- 6. Cover with desired depth layer of pea gravel.
