

VanZyverden's
CORNUS IVORY HALO® 4" POTTED ROCKETLINERS®

Rocketliners® are sized, shaped and rooted throughout the pot with strong and responsive roots. Gardeners can expect a healthy finished plant within a single growing season. They have greater fresh root mass and vertical root training which promotes faster finishing times. While it can often take up to 3 years for a shrub or vine to become fully established growing from bareroot, Rocketliners® may only take 12 months, saving you up to 2 seasons of waiting time. Rocketliners® are for gardeners that have busy lives, little time to waste and want to start out with the best planting stock.

*What matters most in young plants is
what is below the soil line in the pot,
not the branches above*

Red stems all winter long

*Shrubs are the cornerstone of
landscapes*

About This Variety: Ivory Halo® Dogwood (Cornus alba 'Baihalo' USPP#8722) is a compact dogwood shrub with striking variegated leaves. Stems are red all winter long. Excellent border or accent plant. Adapts to most soils and conditions.

Growing Instructions: Dig a hole two times the width of the liner pot. Set top of root ball even with ground level. Combine planting mix and garden soil. Fill to ground level and tamp down firmly. Water to settle soil. Add layer of mulch to retain moisture and discourage weeds. Water regularly for the first year, then as needed once established. Feed with a quality fertilizer following application and frequency instructions, typically just before and during the bloom season.

Care Tip: Prune to maintain shape.

Blooms: Mid spring to summer

Exposure: Full sun to partial shade

Height: Grows 48-60" tall

Spacing: Plant 48-60' apart, setting root ball even with ground level

USDA Zones: Hardy in USDA zones 3-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
