

Van Zyverden's
FREESIA DOUBLE BLOOMING YELLOW

Freesias are delicate flowers perfect for cutting. Their sweet scent is extremely fragrant and popular and is often infused into lotions and perfumes. Freesias are visually stunning. They bloom in abundant clusters with up to eight trumpet-shaped, upward-pointing blossoms on leafless stems. Despite popular belief, they are easy to grow.

Double blooms

Great in flower arrangements

Fragrant

About This Variety: These freesias produce double blooms. They are widely available at retail nurseries and mail-order catalogs in mixed and single colors. They are unique and make for striking displays in the garden.

Growing Instructions: Plant about 16 bulbs per square foot. They look best grouped. Extend the blooming season in a cut garden by planting a few bi-weekly as they bloom, about 10-12 weeks after planting. They can also be grown in pots indoors.

Care Tip: In USDA zones cooler than 9, the corms will not survive the winter and should be dug up if you want to over winter them.

Exposure: Full Sun to Partial Shade

Height: Grows 12-24" tall

Spacing: Plant 2" apart, 2" deep

USDA Zones: hardy in USDA zones 9-10

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
