

# SUNSHINE<sup>®</sup> MIX #4

HIGH POROSITY

## WHAT IS IT?

- Ideal for cutting and seed propagation, potted bedding plants and perennials, and container-grown herb and vegetables
- Contains more perlite than our other Sunshine<sup>®</sup> Mix #4 formulas
- Can be used for both indoor and outdoor growing
- Contains **RESILIENCE<sup>®</sup>** the silicon advantage-- which may improve resistance to wilting
- A **great value** for gardeners:
  - Compressed bale expands up to 2x
  - Fills up to (23) 3 gallon containers or (14) 12" round pots\*

Size: 3.8 CF

\*This is a general guide. Measurements will vary based on the pot manufacturer and the grower's handling of the product.

## GROW LIKE THE PROS

Same quality ingredients used in our professional mixes

## WHAT'S IN IT?

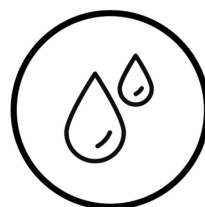

**Canadian Sphagnum Peat Moss** helps plant retain moisture and nutrients for longer

+

**More perlite than our other Mix #4 formulas** for excellent drainage and air space for root development

+

**Wetting Agent** helps the mix absorb and distribute water uniformly throughout the pot

+

**RESILIENCE<sup>®</sup>** may improve resistance to wilting
