

# FLUSH-FIT END PANEL APPLICATION INSTRUCTIONS

Hardware for installation not included.

U180177A  
Rev. 09-14

Before beginning the cabinet installation, you will need to apply the flush-fit end panels to the side(s) of the cabinets that will be exposed to the room. Just follow the simple steps below.

## MATERIALS

Finished flush-fit end panel and a roll of double-sided tape (suggested 1 roll per flush-fit end panel) or construction adhesive. (Neither are provided.)

## TOE NOTCH INSTRUCTIONS

Note: If flush-fit end panel is on the left side of cabinet, the toe notch will be on the right edge of the flush-fit end panel. If the flush-fit end panel is for the right side of the cabinet, the toe notch will be on the left edge of the flush-fit end panel.

To cut the toe notch out of the flush-fit end panel:

- Lay the panel up against the cabinet side to be covered and align all four edges with the cabinet.
- Using a pencil, draw a line to mark the location of the toe notch
- Using a power saw, cut along the line.

- 1 Apply double-sided tape or construction adhesive to the backside of the flush-fit end panel. (Figure 1).

If using tape:

- Cut the roll of double sided tape into strips. Cut tape strips to the lengths and quantities listed on the tape template. You will need approximately one roll of tape for each flush-fit end panel.
- Apply the tape to the flush-fit end panel following the tape template diagram. Tape strips applied along the edges of the flush-fit end panel should be  $\frac{1}{4}$  in. from the edge.
- As you apply each tape strip, run your finger along the strip, applying pressure to make sure the tape makes complete contact with the flush-fit end panel.

- 2 Apply flush-fit end panel to upper cabinet side panel

- Remove the backer from each tape strip.
- Holding the flush-fit end panel at an angle from the cabinet side panel, align the front edge of the flush-fit end panel to the face frame. Make sure the entire edge of the flush-fit end panel is seated inside the face frame groove.
- Align the top of the flush-fit end panel with the top of the cabinet side panel and press the flush-fit end panel against the side panel.
- Working from front to back, apply pressure along the entire surface of the flush-fit end panel to make sure each tape/adhesive strip makes complete contact with the cabinet side panel.
- Allow the tape/adhesive to cure for 1 hour before proceeding with the cabinet installation. Clamps or weights can be added to secure panel until adhesive dries.

## DECORATIVE END PANEL FOR BASE CABINETS

- If you purchased a decorative end panel, a flush-fit end panel must be installed first. See step 2.
- Remove the cabinet door or drawers. This allows access to clamp the end panel.
- Pre-drill eight holes around perimeter (1 in. from edge) of cabinet side panel from the inside (Figure 2).
- Measure down  $\frac{1}{4}$  in. from the top of the cabinet on the outside. Make a pencil mark. Align top edge of end panel with pencil mark and secure to cabinet with clamps.
- Secure the end panel to the cabinet using #6 x 1 in. wood screws (Figure 3).

**CAUTION:** Never secure decorative end panel by inserting screws into center of the panel.

# Care and Cleaning

---

## EXTERIOR CARE AND CLEANING

For normal spills, a damp cloth is sufficient. Remember to dry the surface immediately. Lemon oil is recommended for cleaning wood doors. Most furniture care products, not containing wax, petroleum solvents or silicone can be used for polishing. Do not use caustic agents and/or abrasive scrubbers. Nicks and dings can be repaired using the color sticks. Fill in the scratch or nick using the color stick. A Clear Coat spray may be applied if desired.

## INTERIOR CARE AND CLEANING

Cabinets can be cleaned with a damp sponge or cloth using soapy water. Do not use any type of abrasive scrubbers. Do not let liquids stay on the surfaces for a long period of time. The surface is water resistant, not waterproof.

## MIRRORS

Use a water-dampened cloth to clean the mirror frame. For the mirror, use ammonia-free cleaning products. Avoid using abrasive cleaners.

## RSI HOME PRODUCTS, INC. LIMITED WARRANTY

**What This Warranty Covers:** RSI Home Products, Inc. ("RSI") warrants its parts and products to be free of substantial defects in materials and workmanship from the original date of purchase under normal home use. This warranty is offered only to the original consumer purchaser and may not be transferred.

**How Long The Warranty Lasts:** Coverage for all vanity cabinets, fixed vanities, drawer banks, bath storage cabinets, linen cabinets, wall hutches, fillers, and toe kicks last for the life of the product. Coverage for medicine cabinets, mirrors, and accessories lasts for 5 years from the original date of purchase.

**What RSI Home Products Will Do Under The Warranty:** During the warranty period, RSI, at its option, will repair or replace any part or product that proves to have substantial defects in materials or workmanship, or RSI will provide an equivalent replacement product. In keeping with our policy of continuous product improvement, RSI reserves the right to change specifications in design and materials without notice and with no obligation to retrofit products we previously manufactured.

**How State Law Applies:** This warranty gives you specific legal rights, and you may also have other rights that vary from state to state.

**IMPLIED WARRANTIES:** RSI DISCLAIMS ANY IMPLIED WARRANTY OF MERCHANTABILITY, AND THERE ARE NO WARRANTIES THAT EXTEND BEYOND THE DESCRIPTIONS ON THE FACE HEREOF. TO THE EXTENT THAT SUCH DISCLAIMER IS NOT VALID UNDER APPLICABLE LAW, ANY IMPLIED WARRANTY SHALL BE COEXTENSIVE IN DURATION WITH THIS WARRANTY.

**Wood, Aging and Printing Limitations:** Because of the varying natural characteristics of wood and the effects of aging, product shown in displays and/or printed materials will not be an exact match to new cabinetry you will receive. Depending on the wood characteristics, the age of the sample and the environment of the showroom, samples will show some degree of variation from new product. In addition, you should not expect all doors, drawer fronts, trim or molding to match exactly in either finish or grain. Variation in wood is normal and unavoidable. In addition, it is not possible to exactly match our colors in printed materials. Therefore, you should view the actual samples when making your color selection.

**What This Warranty Does Not Cover:** This warranty does not cover any problems or damage which result from improper transportation, improper installation, mishandling, misuse, abuse, neglect, abnormal use, commercial use, improper maintenance, non-RSI repairs, accidents, or acts of God, such as hurricanes, fire, earthquakes or floods. This warranty and any applicable implied warranties do not cover incidental or consequential damages arising from any defects in the product, such as labor charges for installation or removal of the product or any associated products. This warranty does not cover defects or damages caused by normal wear & tear, alterations, environmental conditions, humidity absorption, or mold. In addition, variations in wood grain, finish color, aging or other natural wood and stain characteristics are not considered defects and are not covered by this warranty. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

**How To Obtain Warranty Services:** If you need replacement parts or would like to make warranty claim, please contact our Customer Service Representative by mail, e-mail, fax, or telephone at the address or phone numbers listed on this page. All warranty claims must include the model number of the product, copy of the original receipt and the nature of the problem. In addition, RSI may at its discretion require inspection of the installation site or authorize the prepaid return of the claimed defective part. Merchandise not pre-approved for return will not be accepted and the associated claim not accepted.

If upon inspection you find our product has a damaged or missing part, it may not be necessary to return the unit to the store of purchase. Please contact RSI Customer Service to obtain a replacement part.
