

Make a
lasting first
impression.

Stair Return

Stair treads and returns are pre-mitered.

Stair Tread

Stair Riser

WHY CHOOSE OUR TREADS?

Stairs are a focal point and make a lasting first impression. They are often one of the first features you notice when entering a multistory house. Finish them with Pergo StairCraft™ stair treads, an innovative solution with pre-attached nosing. This seamless, one-piece solution installs over stairs with or without existing nosing.

It is 100% waterproof and provides superior scratch resistance, keeping your stairs looking newer for longer. Additionally, the stair tread offers a precise color and design match, eliminating the need for staining, sanding, or applying polyurethane.

Included in the Kit

2 stair treads, 2 side returns, 2 white risers.

KEY FEATURES

- Pergo StairCraft™ stair treads finish your stairs quickly and easily, without the cost and time of a full stair rebuild.
- Seamless one-piece molding with pre-attached nosing installs over existing stairs.
- Compatible with stairs that are either closed or open on one side.
- Works with vinyl, laminate, and floating floors.
- Treads are 1:1 color matched to your corresponding floor, so there's no need for sanding, staining, or polyurethane.
- Glue-down installation using MAPEI ECO 907 tread-lock adhesive.
- Measures 12.2 inches wide by 48 inches long.
- Comes with a Limited Lifetime Residential Warranty.
