

# User manual

AP301 series Smart Air Purifier

## **READ AND SAVE THESE INSTRUCTIONS**

Thank you for using our products. Please read this manual carefully before using our products!

This product can only be used in family or similar places.

# 1. Safety precautions

---

In order to avoid possible injury or financial loss to you or others, please pay attention to the following safety precautions.

If the power cord is damaged, in order to avoid danger, it must be repaired by the professional personnel of the manufacture.

## Warning

**Do not touch the power plug with wet hands.**

Otherwise, electric shock may be caused.

**Before cleaning the electrical apparatus, make sure that the power supply has been disconnected.**

Before cleaning the electrical apparatus, make sure that the power supply has been disconnected.

**Do not use universal socket or equipment beyond the specified value, it may cause overheating or fire accidents.**

**Please insert the plug into the power socket before starting the air purifier.**

If the plug is not fully inserted into the socket, it may cause electric shock and overheating, and even cause fire accident.

- Do not use damaged plugs or loose power outlets.

**Do not damage the power cord and socket.**

When using the machine, do not bind the wires. Using the damaged wires may lead to electric shock, short circuit or fire accident.

- It is forbidden to cut, refit, over twist, twist, poke and pull wires, or place heavy objects on wires or sockets.

**Please clean the power plug regularly.**

If dust accumulates on the power plug, the insulation part of the plug may be damaged, resulting in a fire accident.

- Pull out the power plug and clean it with a dry cloth (do not use a wet cloth!).
- If the appliance is not used for a long time, the power plug should be removed.

**It is forbidden to disassemble or refit the air purifier without authorization.**

Unauthorized disassembly or modification of electrical appliances may lead to electric shock, failure or fire accident.

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way.

If the plug does not fit fully in the outlet, reverse the plug.

If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety.

**WARNING:** To Reduce The Risk Of Fire Or Electric Shock, Do Not Use This Fan With Any Solid-State Speed Control Device.

**WARNING:** To Reduce The Risk Of Fire, Electric Shock Or Injury To Persons, Do Not Use Replacement Parts That Have Not Been Recommended By The Manufacturer (e.g. Parts Made At Home Using A 3D Printer).

**RISK OF ELECTRIC SHOCK** – These servicing instructions are for use by qualified personnel only.

To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.

This product complies with the maximum allowable concentration of ozone of 0.050 parts per million by volume (ppmv) in a 24-h period.

## Warning

It is forbidden to use benzene or thinner and other solvents to clean the air purifier, so as to avoid contact with insecticide sprays.

Otherwise, the air purifier may break and cause damage, even short circuit, resulting in electric shock or fire accident.

Pull out the power plug, **please hold the plug, please not pull the wire.**

If the wire is pulled directly, it may cause short circuit, or damage the wire, leading to fire or electric shock.

It is forbidden to use this air purifier in places with greasy particles.

For example, in the kitchen, the air purifier may break and cause damage.

- The air purifier shall not be used as ventilation or air extraction equipment.

It is forbidden to use this air purifier in places with high temperature, humidity or wet body, such as bathroom.

The air purifier may leak electricity and cause electric shock or fire accident.

It is forbidden to use the air purifier in the room with fumigation insecticides.

Chemical residues may accumulate in the unit and then be released from the air outlet, thus endangering health.

- After using insecticide, the room should be thoroughly ventilated before using the air purifier.

Do not let volatile substances or combustible materials, such as tobacco or sparks, float into the aircraft.

Otherwise, fire accidents may occur.

Do not wet the fuselage.

Otherwise, electric shock and fire accidents may occur due to short circuit.

## ⚡ Warning

- If you need to move the product, please disconnect the power of the product first.
- Be sure to move the product slowly.
- Do not move the product by pulling the power cord.
- Do not move the machine while the product is in operation. If you need to move the machine, please turn off the power.

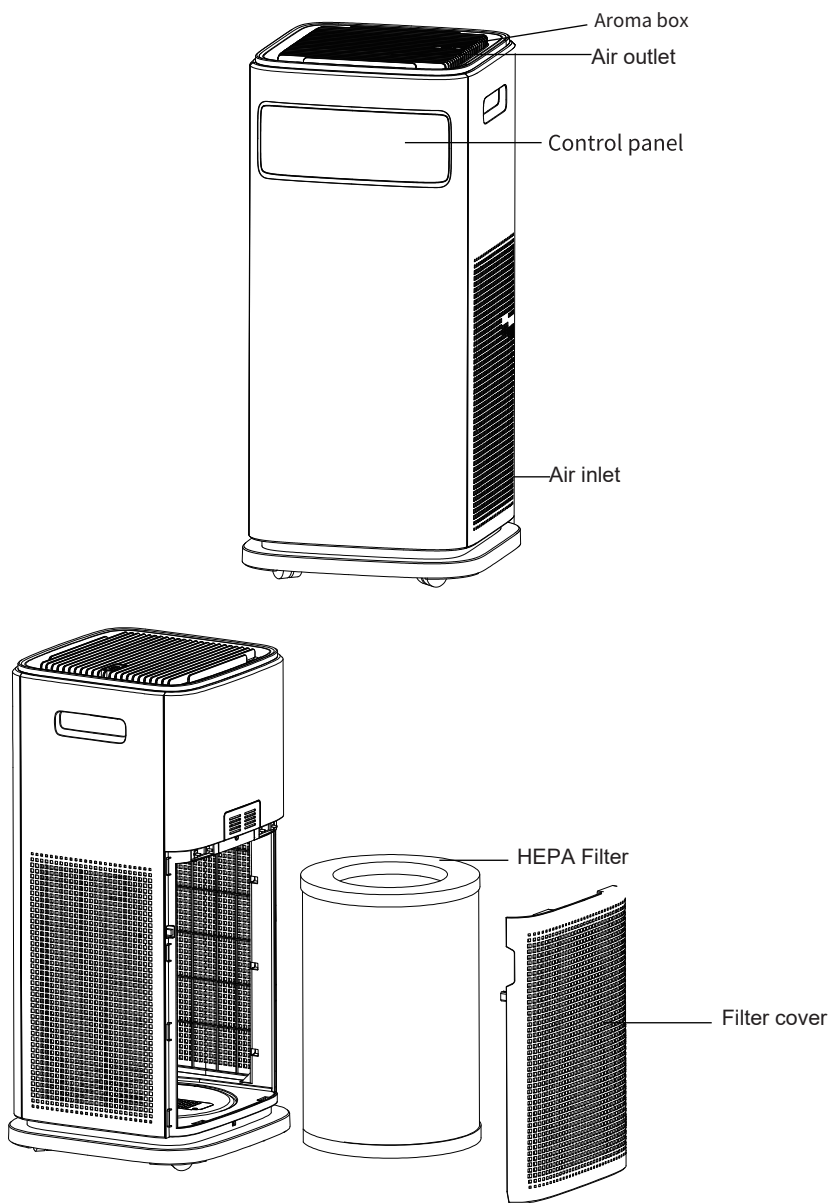

## ⚡ Warning

**In case of any of the following conditions, please turn off the power of the machine immediately.**

- If the circuit breaker works or the fuse burns out.
- If the power cord or plug is abnormally hot.
- If you find a burnt odor or abnormal sound or vibration.
- If there is any other abnormal phenomenon or fault.

## Package list

1 x Air Purifier  
1 x HEPA Filter(Pre-Installed)  
1x User Manual

## Specifications

Model	AP301AW
Dimension	31.6x31.6x68.3cm 12.4x12.4x26.9in
Net weight	16.5lb/7.5kg
Rated Voltage	100-240V
Rated frequency	50/60Hz
Rated Power	53W
Wi-Fi	Support

## Install the filter

### Information

This air purifier is equipped with a filter inside, but before using the product, be sure to remove the packaging of the filter. Please follow the instructions below to remove the filter and its package, and then put it back into the purifier.

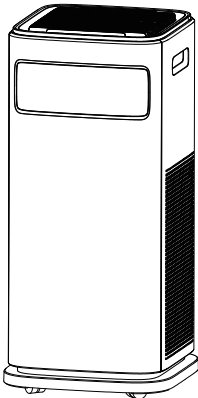

### ⚡ Warning

- Do not operate the machine without filter.
- Remove the plastic packaging of the filter before use.

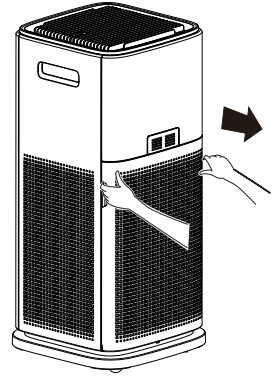

## Getting started

When using the air purifier for the first time, please follow the steps below to install the filter correctly.

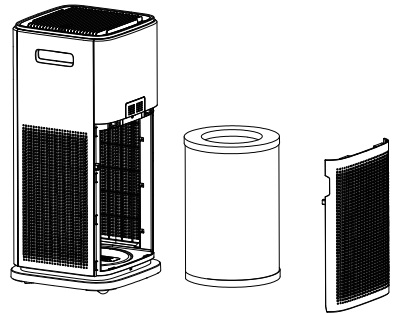

- 1) Remove all packaging materials and place the machine on a dry, stable, flat surface.

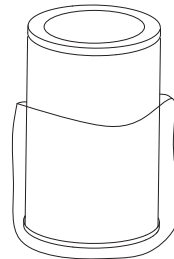

- 2) Press the upper right side of the filter cover with your right hand, and pull out the cover with your left hand in the direction of the arrow from the side gap.

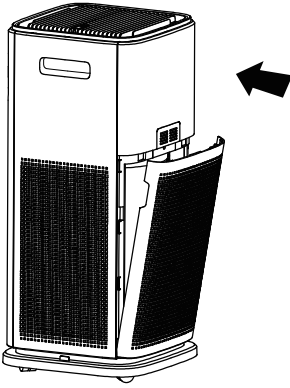

- 3) Take out the HEPA filter from air purifier.

- 4) Remove the packing material from HEPA filter.

5) Replace the filter cover. The air purifier will not power on unless the filter cover is replaced correctly.

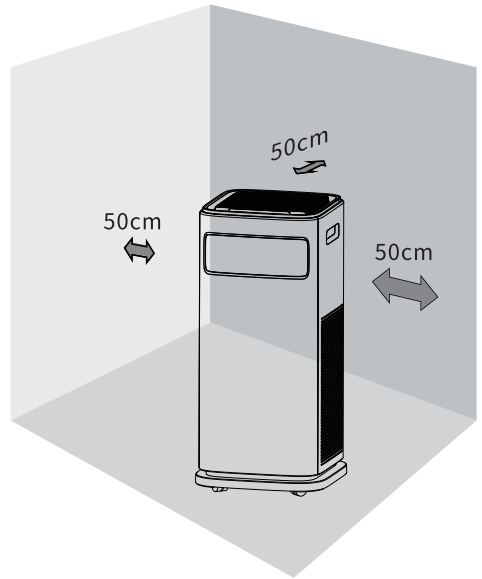

6) In order to achieve good air circulation effect in your room, make sure that the air inlet and outlet of the machine are not less than 50 cm away from the obstacles.

Please use at least 1m away from TV, radio and other electrical appliances.

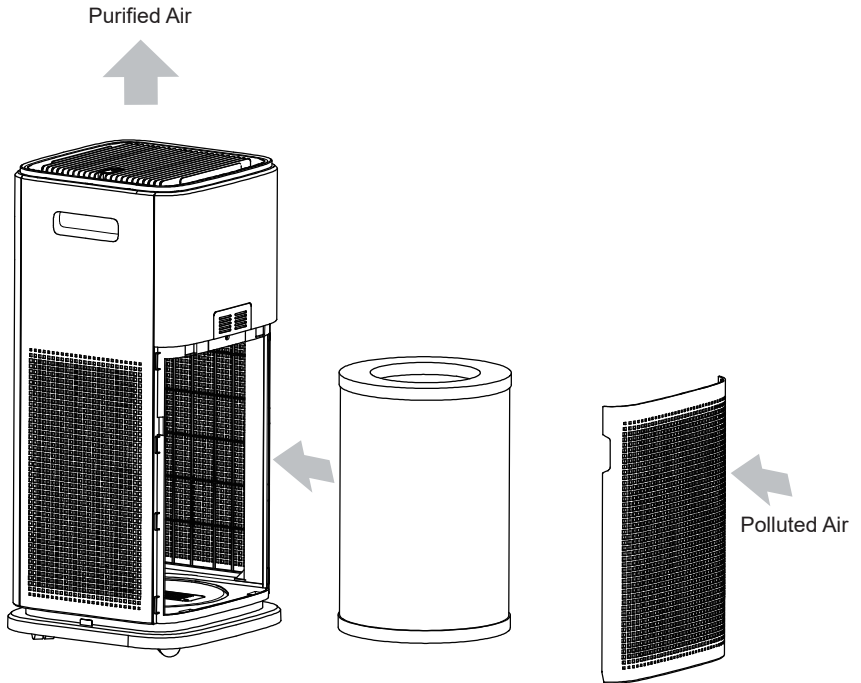

Please do not plug the power plug into the same socket as the power plug of TV, radio and other electrical appliances.

#### 💬 Tips

- Do not obstruct the air inlet and outlet to ensure adequate ventilation and maximum efficiency of the machine.
- Place the machine in a dry location on a smooth and flat floor.
