

Van Zyverden's
ROSE LILIES MAGIC STAR

Lilies are one of the truly great garden plants, and they are beloved by gardeners everywhere. Their beauty, diversity, extended season of bloom, graceful stature and overall reliable disposition reflect the fruits of hundreds of years of selective breeding. In Chinese, the word 'Lily' means 'forever in love'. The Lilium family is so large, varied, and complex that it is challenging to describe them in short. Lilies are deer and critter resistant. Plant them just about anywhere - borders, beds, cutting gardens, perennial gardens, pots and containers.

Good full sun perennial choice

*Large flowers
on strong stems*

Intensely fragrant

About This Variety: Magic Star is an award winning double oriental lily. It produces many flowers on a single strong stem, with up to two to three layers of petals. Very tropical looking and exotic. Large flowers, fragrant, pollen free and long lasting cut flower. Great curb appeal like fireworks.

Growing Instructions: Plant in well-drained soil where they will receive 6-8 hours of sun a day. They are winter hardy and considered a strong perennial that can be left in the ground and will re-bloom year after year if the conditions are right. Lilies perform best when mulched.

Care Tip: Lilies prefer cool soil, which argues for shade at their feet from low growing companions. When cutting the flowers for bouquets, remove no more than 1/3 of the stem so sufficient leaves remain to renew the bulb for the coming year.

Exposure: Full sun to partial shade

Height: Grows 32-48" tall

Spacing: Plant 6-8" apart, 6-8" deep

Hardy in: USDA zones 3-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
