Siga estas instrucciones para impresionar a sus vecinos

### STEP 1

#### PREPARE

NEW LAWNS

OVERSEEDING

##### FOR BARE SPOTS/NEW LAWNS:

Remove debris, then rake the soil to loosen and smooth the top layer.

PARA ZONAS CON HUECOS O CÉSPED NUEVO: Retire los desechos y luego rastille la tierra para aflojar y suavizar la capa superior.

##### FOR OVERSEEDING/THIN AREAS:

Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer.

PARA RESIEMBRA O ZONAS DELGADAS: Corte el césped existente lo mas corto sea posible y elimine los desechos. Luego, rastille la tierra para aflojar y suavizar la capa superior.

### STEP 2

#### APPLY FERTILIZER

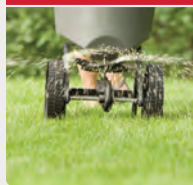

Apply a starter fertilizer at the manufacturer's recommended rate.

APLIQUE UN FERTILIZANTE: Aplique la cantidad de fertilizante recomendada por el fabricante.

### STEP 3

#### APPLY SEED

Spread the seed evenly using a drop, rotary or hand-held spreader according to the recommended spreader settings listed. Rake gently to work your seed & fertilizer into the soil.

APLICACIÓN: Disemine las semillas de manera uniforme con un esparcador de caída, rotativo o manual, de acuerdo con las configuraciones recomendadas y enumeradas del esparcador. Rastille suavemente para que las semillas y el fertilizante germinen en la tierra.

### STEP 4

#### WATER

Keep the soil moist by watering daily as needed until grass sprouts and reaches about 3" tall.

RIEGUE: Mantenga la tierra húmeda al regar lo que sea necesario por día hasta que el césped brote y alcance alrededor de 3 pulgadas (7,62 cm) de alto.

### ADDITIONAL CARE TIPS

- 1 Mow lawn when grass height reaches 3" tall
- 2 Avoid removing more than 1/3 of the total grass blade length at any single mowing
- 3 Hot summers can be stressful on your lawn; increase the mowing height during hot and dry periods to reduce stress on lawn

**MOST IMPORTANTLY - Don't kill the grass before it starts by using weed control (pros call it preemergent) on your lawn until your grass has reached its full mowing height of 3"**
