

## Electric Carbon Infrared Heat Lamp

*with Remote Control*

When choosing an outdoor heating system or garage heater, consider Hanover's line of electric infrared heaters. Hanover's 30.7" wide carbon infrared heat lamp is available in 3 options: alone for hanging or mounting, paired with an adjustable pole stand, and paired with an adjustable tripod stand. Each option includes a handy remote control. Use this versatile heater for your patio, porch, balcony, garage, workshop, and more!

Similar to sunshine, infrared heat is a radiant heat that warms a person or an object directly, rather than heating the air in-between. Carbon infrared heat is a soft radiant heat that warms the skin efficiently. Infrared heat can be felt instantly as soon as you turn it on – no waiting for it to “warm up”.

### HEATER FEATURES

- Heat an area up to 139 sq. ft.
- Use for patio, porch, balcony, garage or workshop
- Premium carbon fiber technology
- Instant heat with no warm-up time
- Overheat protection and tip-over safety switch
- Approximately 10,000 hours service life
- Available with or without stand
